

# News From the Pond

Room 6

For the Weeks of September 21 - October 2

## Math

Students practiced patterns and skip counting. Students who have mastered counting by 2s, 5s, and 10s demonstrated counting by 3s and 4s also. Feel free to practice at home.

## Reading

Our multiple literacy standards evaluate how students find, understand, use, and evaluate all types of media. To support this, we have been identifying and using different parts of a book such as the table of contents, index, and glossary to find information. We have also utilized text captions.

## Writing:

Spelling is part of writing, not its own subject. Have students write a sentence or two and look for misspelled words from the core list. These are the focus words. Practice using their and there correctly.

Birthdays

Malia

Sept. 30

## Science:

To support our multiple literacies, students used an online dictionary to define weather words during library skill time.

## Social Studies

Students created maps including a compass rose, a key, and symbols.
