

# News From the Pond

Room 6

For the Week of August 31 September 4

## Math

Several times each week students participate in Mastmath, a differentiated math program that helps students practice fast facts at their individual level.

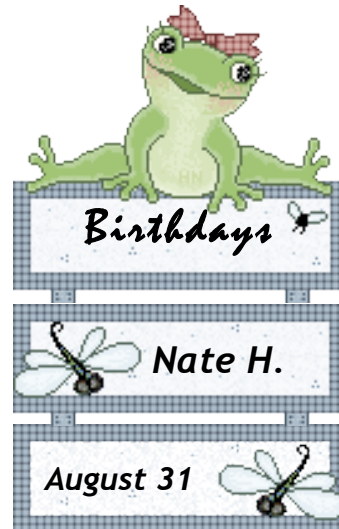

## Reading

We continued to work on our First 20 Days to Establishing Good Reding Habits. Students practiced listening to reading on cassettes and Bookflicks. They also wrote in response to reading and continued to work on building reading stamina.

## Open House:

Columbian will be holding our open house Thursday, September 17, from 6 to 8.

## Science:

We observed changes in temperatures and prepared for our first science CRT.

## Social Studies

We began our first unit, identifying different places we live.
