

Live Homework Help

Omaha Public Library now offers Live Homework Help®, an online tutoring service from Tutor.com™ that connects students to expert tutors (without charge) in math, science, social studies, and English via the Internet. Spanish-speaking tutors are available to help students in math and science.

This free service allows students with a library card to connect to an expert tutor either from computers at one of Omaha Public Library's locations or from any computer with an Internet connection, **every day from 2 to 9 p.m.** Live Homework Help® is easy to use. Students simply go to the Library's website **omahapubliclibrary.org**, click on "You've Got Homework" and then enter grade level and subject. In just a few minutes, students are connected to a tutor in an online classroom for one-on-one help in math (elementary, algebra, geometry, trigonometry and calculus), science (elementary, earth science, biology, chemistry, physics), social studies (American history, world history, political science), and English (spelling, grammar, essay writing, book reports).

Students and tutors can review specific homework questions, as well as subject-specific concepts using features such as controlled chat, an interactive white board and shared Web browsing in the online classroom. Tutors can type math equations using a special math tool, share educational websites and much more for a rewarding learning experience. All tutors are certified teachers, college professors, professional tutors, graduate, or under graduate school students from across the country. Tutor.com has more than 1,800 tutors available to work with students when they need help most. Every tutor is certified by Tutor.com and has undergone a third party background check.
