

Wilson Focus School Enrichment Courses - Session #4

April 8, 2025 through May 22, 2025

Class	Class Description
Art Club	Students will create art projects using different artistic items and tools.
Challenge Island	Cool Careers Island: What do you want to be when you grow up? Cool Careers Island will give you a taste of some of the world's most exciting jobs, from veterinarian to marine biologist to professional basketball player! Start engineering your future today with this STEAMtastic Challenge Island adventure!
Coding with Khan	During this enrichment, student will work on developing their coding skills.
Craft Corner	Make and take small fun crafts
Dance	Are you interested in dancing? Then this is the place for you!
Drama Club	Do you like acting! Join us as we prepare for the presentation of 101 Dalmatians. (Students have already auditioned and been selected for this enrichment.)
Food and Nutrition	Learn about the nutritional benefits of what you eat, sample food, and take-home recipe ideas to share with your family.
GoNoodle	Movement Matters! Students will do brain breaks and move and groove with GoNoodle.
Henry Doorly Zoo Club	Students will participate in an animal conservation-themed class designed to foster a love of animals and awareness of the natural world in a fun, hands-on semi-formal classroom environment. Zoo staff will bring science experiments, activities, art projects, and zoo artifacts to teach about animal types, habitats, and the interconnectivity of all plants and animals in our world. Live animals will visit, including insects, arachnids, reptiles, amphibians, and MORE!
Minecraft Coding	In this session, students will use Minecraft to work as a team, learn problem-solving skills, develop coding skills, and build creatively.
Needlepoint	Students will use yarn and needles to create small projects using needlepoint tools.
NE STEM 4U	During this enrichment, you will participate in activities that focus on science, technology, engineering, and math.
Podcasting	In this enrichment, students will be able to write, record, and edit their own podcast using Garage Band.
Puzzle Mania	Do you like puzzles? Then this is the place for you. During this session, students will work on puzzles. Puzzles enhance problem-solving, concentration, motor skills, and visual-spatial reasoning.
Snapology	Snapology's STEAM programs teach through building. Students will use LEGO® bricks, K'Nex and technology to have fun while they learn.
Spark Positivity	Be part of SPARKPositivity and learn about Kindness, Compassion, Teamwork, and more through videos and activities. Learn skills to be a positive influence to others.
Sports Spectacular	Students will learn and play a variety of sports games (soccer; basketball and more)
Strings	During this enrichment, student who are currently participating in strings will refine their skills.
Taekwondo	Students will learn the skill and discipline of martial arts originating from Korea.
Yearbook Club - (6th ONLY)	Students will learn to design, capture photography, and create a well-organized school yearbook.
Ultimate Board Games	Participate and learn friendly board games. Experiment with games you don't see every day! Learn and teach others! Board games increase brain function, strategy, reasoning, and social skills.
Zen Coloring Club	Zen Coloring Club offers a peaceful place where students can unwind and express their creativity through the art of coloring. Each session provides a welcoming environment equipped with a variety of patterns and colors to help students relax and de-stress after a busy school day.
