

OMAHA PUBLIC SCHOOLS

Omaha, Nebraska

EDUCATIONAL BENEFIT ELIGIBILITY: 2023-24

Since 1994, the Nebraska Department of Education has required all Nebraska school districts to report the number of students in each school approved for free or reduced-price lunch as of October 1 each school year. Previously, families of students submitted applications indicating financial need for participation in the National School Lunch Program or they were directly certified by Nutrition Services through state databases. While not required, application for the federal meal program was strongly encouraged by schools. Nationally, participation in this program, although not the best indicator, is typically the only indicator of socioeconomics available to school districts.

Beginning in the 2022-23 school year, all students will receive breakfast and lunch at no cost through the Community Eligibility Provision (CEP) and the United States Department of Agriculture (USDA). The Community Eligibility Provision removes the need for families to fill out an application to receive breakfast and lunch at no cost. District eligibility for the CEP is based on the percentage of students in the district that are directly certified by Nutrition Services through state databases and has been approved through the 2024-25 school year for Omaha Public Schools.

A new Educational Benefits Form (EBF) is available beginning in the 2022-23 school year to collect financial information that allows eligible families to access benefits in our schools and community. These benefits include discounts on home internet service, discounted or waived fees for academic testing, access to college and postsecondary resources and school and community enrichment opportunities. In addition to access to benefits, student eligibility for educational benefits will be used as the new school socioeconomic indicator beginning in the 2022-23 school year replacing free or reduced lunch eligibility.

The district educational benefit eligibility rate of 72.7% is 5.6% higher than the 67.1% educational benefit eligibility rate counted in the 2022-23 school year. More than 38,500 (75%) students have EBF data on record for this school year while about 13,000 (25%) students did not have EBF information at the time this report was created. In the second year of collecting the EBF, rates appear comparable to pre-pandemic free and reduced-price lunch rates suggesting that this new metric is a viable alternative to measure district and school level socioeconomics.

Attached are various charts reflecting the number and percentage of students eligible for educational benefits. Data are masked in this report where groups of ten or less could allow for identification.

Chart I	Shows historical percentage by race/ethnicity.
Chart II	Show district educational benefit eligibility totals by grade and race/ethnicity.
Chart III	Show individual school educational benefit eligibility in 2023-24 compared to educational benefit eligibility in 2022-23.
Presentation	PowerPoint presentation depicting key points, educational benefit eligibility maps, and historical percentage by race/ethnicity.

*New race/ethnicity collection guidelines begin

**Depicts educational benefits eligibility while all previous years are free or reduced lunch eligibility.

Beginning in the 2022-23 school year, all students will receive breakfast and lunch at no cost through the Community Eligibility Provision (CEP) and the United States Department of Agriculture (USDA). The Community Eligibility Provision removes the need for families to fill out an application to receive breakfast and lunch at no cost. A new Educational Benefits Form (EBF) is available beginning in the 2022-23 school year that allows eligible families to access additional benefits in our schools and community. Eligibility for educational benefits is the replacement metric for Free or Reduced Lunch eligibility beginning in the 2022-23 school year. The free or reduced lunch eligibility in this report for 2021-22 are also likely artificially low because of the USDA waiver allowing school district to serve all students school meals free of cost in 2021-22

Beginning in the 2022-23 school year, all students will receive breakfast and lunch at no cost through the Community Eligibility Provision (CEP) and the United States Department of Agriculture (USDA). The Community Eligibility Provision removes the need for families to fill out an application to receive breakfast and lunch at no cost. A new Educational Benefits Form (EBF) is available beginning in the 2022-23 school year that allows eligible families to access additional benefits in our schools and community. Eligibility for educational benefits is the replacement metric for Free or Reduced Lunch eligibility beginning in the 2022-23 school year.

2023-24 DISTRICT EDUCATIONAL BENEFITS ELIGIBILITY OMAHA PUBLIC SCHOOLS

December 13, 2023

KEY POINTS

- Beginning in the 2022-23 school year, the use of the Community Eligibility Provision (CEP) district wide removed the need for families to fill out an application to receive breakfast and lunch at no cost.
- A new Educational Benefits Form (EBF) has been available since the 2022-23 school year which collects financial information that allows eligible families to access benefits in our schools and community while providing a socioeconomic indicator for students and schools.
- In 2023-24, 37,572 (72.7%) early childhood through grade 12 students are eligible for educational benefits.
- The district educational benefit eligibility rate of 72.7% is 5.6% higher than the 67.1% educational benefit eligibility rate counted in the 2022-23 school year.
- The eligibility rates included in this report for 2023-24 are likely to be artificially low because the EBF is not required of families.

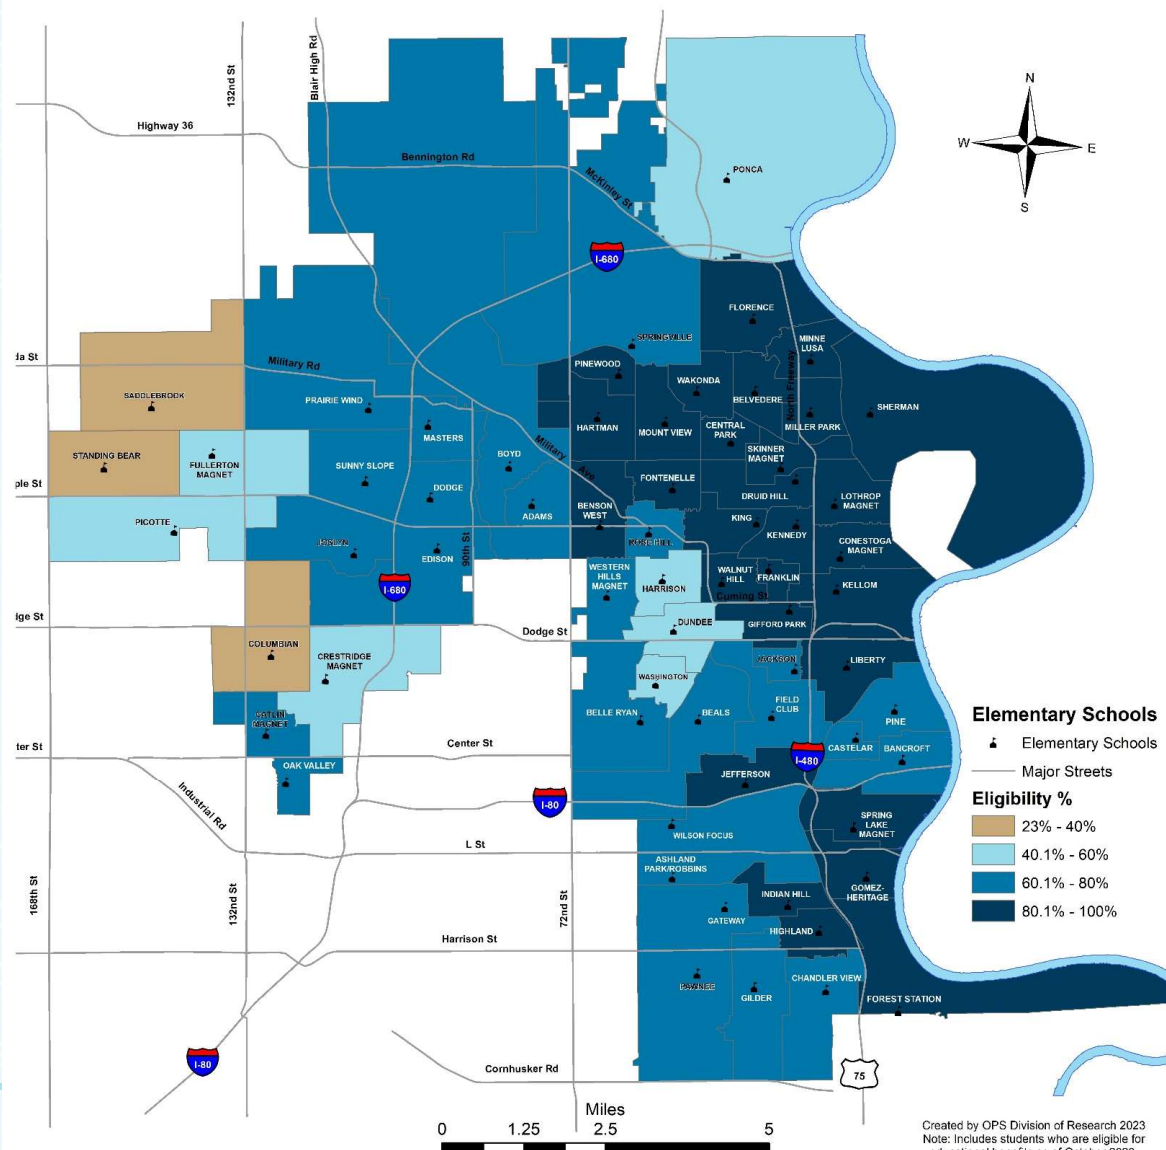

KEY POINTS

- More than 38,500 (74.5%) students have EBF data on record for this school year while about 13,000 (25.4%) students did not have EBF information at the time this report was created.
- In the second year of collecting the EBF, rates appear comparable to pre-pandemic free and reduced-price lunch rates suggesting that this new metric is a viable alternative to measure district and school level socioeconomics.
- Student and family socioeconomic status has been shown to be highly predictive of district and school level performance (status scores) on summative, national and state assessments.
- This report uses the EBF data as of 10/14/2023 for students enrolled on 10/1/2023.

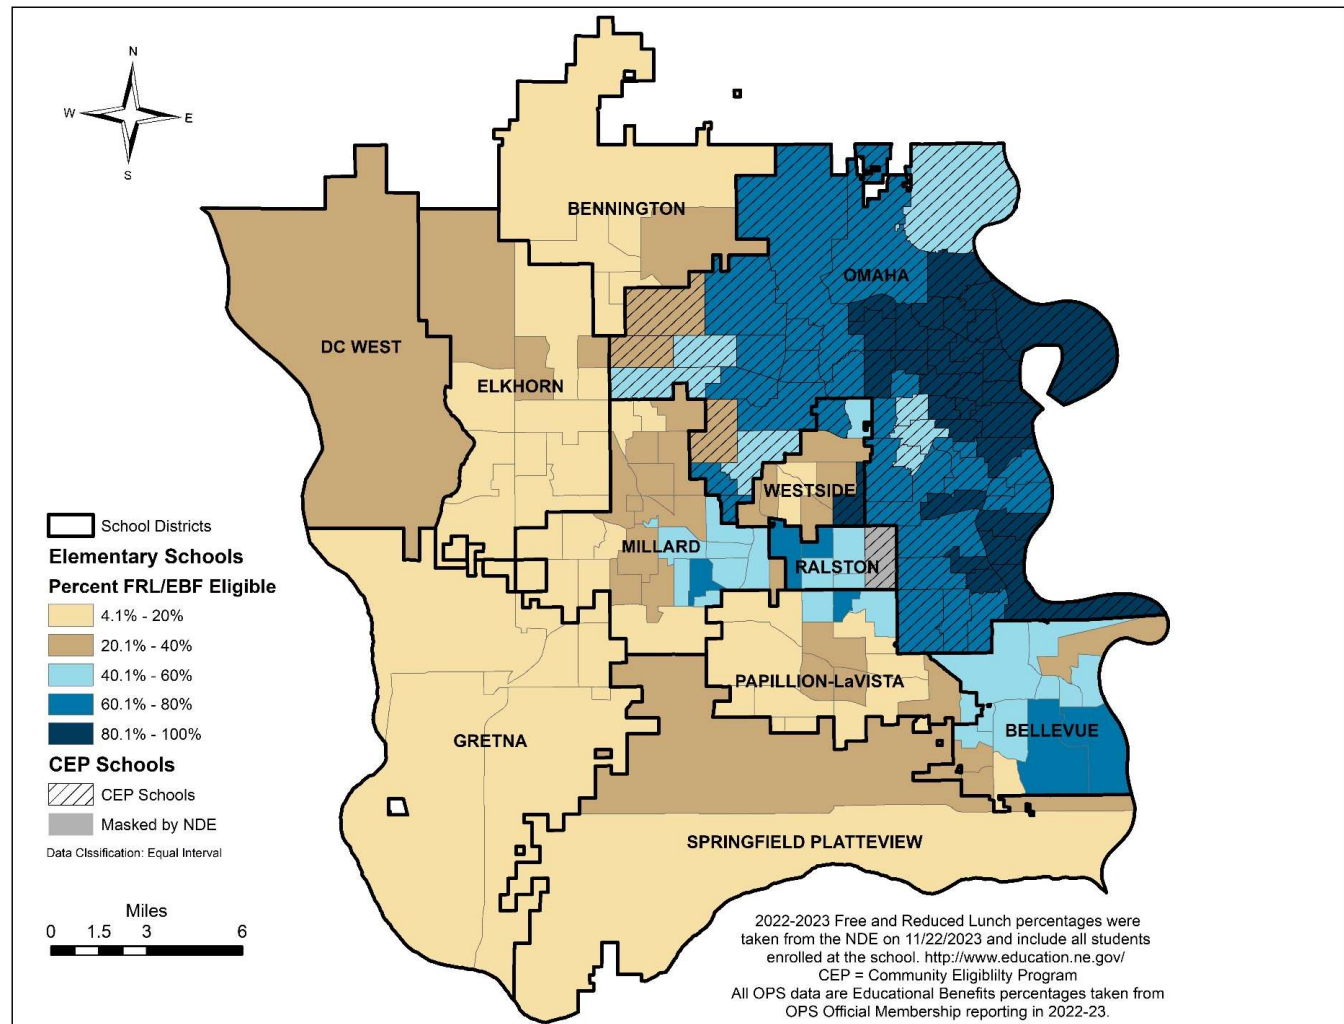

OMAHA PUBLIC SCHOOLS EDUCATIONAL BENEFITS ELIGIBILITY PERCENT BY ENROLLMENT ELEMENTARY SCHOOL (K-6): 2023-24

- The highest populations are in the eastern portion of the district, generally east of 72nd Street.
- 21 of the 64 elementary schools have an eligibility percentage that is below the district eligibility percentage of 72.7%.

LEARNING COMMUNITY FREE & REDUCED LUNCH PERCENT BY ELEMENTARY SCHOOL ENROLLMENT: 2022-23

Based on the FRPL population enrolled across Douglas and Sarpy County elementary schools, poverty is generally concentrated in the urban core of the two-county area and less pronounced in outlying suburban areas. On average, 40.7% of all public school students across the two counties participated in the FRPL program in the 2021-22 school year.

FIVE YEAR EDUCATIONAL BENEFIT AND FREE AND REDUCED LUNCH HISTORY BY RACE/ETHNICITY 2019-20 to 2023-24

*2022-23 and 2023-24 depicts educational benefits eligibility while all previous years are free or reduced lunch eligibility.

Thank you.
