Receipt of Report

Date:

December 13, 2021 (BOE-Receipt of Report)

Agenda Item:

District Free and Reduced-Price Lunch Report 2021-22

Building:

ΑII

Proposed Action:

Information only

Identified Need:

The purpose of this report is to provide the district's 2021-22 free and reduced lunch percentages, and to discuss trends in Free & Reduced-Price Lunch across racial/ethnic representations.

Authority of Action:

Each year, the Research Division staff oversees the preparation of this report.

Stakeholder Groups involved in the development of the proposal:

N/A

Fiscal Impact:

N/A

Next Steps:

N/A

Monitoring and Reporting Timeline:

This is the only official reporting of this information.

Additional Considerations:

- The 2021-22 PK-12 Free and Reduced-Price Lunch count is 35,903 students or 69.5 percent of all students which is decrease of 7.9% from 2020-21.
- On average, 46.4% of all PK-12 public school students across Douglas and Sarpy County participate in the Free and Reduced-Price Lunch program.
- The Free and Reduced-Price Lunch (FRPL) program percentages included in this report are likely
 artificially low because of the USDA waiver allowing school district to serve all students school
 meals free of cost in 2021-22. This practice lowers the number of meal applications received
 from families who are not directly certified.

OMAHA PUBLIC SCHOOLS Omaha, Nebraska

FREE AND REDUCED-PRICE LUNCH 2021-22

Since 1994, the Nebraska Department of Education has required all Nebraska school districts to report the number of students in each school approved for free or reduced-price lunch as of October 1 each school year. Families of students submit applications indicating financial need for participation in the National School Lunch Program or they are directly certified by Nutrition Services through state databases.

While not required, application for the federal meal program is strongly encouraged by schools. Nationally, participation in this program, although not the best indicator, is typically the only indicator of socioeconomics available to school districts. The percentages included in this report for 2021-22 are likely artificially low because of the USDA waiver allowing school district to serve all students school meals free of cost in 2021-22. This practice lowers the number of meal applications received from families who are not directly certified. Conversely, percentage for 2020-21 were higher than in most years because students who had not returned an application were not removed after the 30 days of school mark because of the impact of COVID-19, per the Nebraska Department of Education.

It should also be noted that, because application to the National School Lunch Program is not required, percentages of students approved on the high school level are typically lower than the elementary and middle school levels. This does not reflect higher socioeconomic levels for these students, but, rather, a tendency for older students to choose not to apply.

Lastly, five Omaha Public Schools' elementary schools are voluntarily participating in the federal Community Eligibility Provision (CEP) program that provides free breakfast and lunch to all students within districts and schools with high poverty rates. Since the 14-15 school year, OPS has utilized this program at: Druid Hill, Franklin, Kennedy, King Elementary, and Lothrop. This program impacts the results provided in this report for these five schools and the district total. Lunch applications are not collected from families at these buildings and identification of free or reduced lunch eligibility is only done via direct certification with the state or through a family application from another school.

Attached are various charts reflecting numbers of students participating in the National School Lunch Program. While the Nebraska Department of Education began requiring this information in 1994, the Omaha Public Schools has collected the data since the 1988-89 school year. Data are masked in this report where groups of ten or less could allow for identification.

Chart I Shows historical percentage by race/ethnicity.

Charts II – IV Show district totals by grade and race/ethnicity for free lunch only,

reduced-price lunch only, and free/reduced-price lunch, respectively.

Chart V Show individual school totals for free lunch only, reduced-price lunch

only, and free/reduced-price lunch.

Presentation PowerPoint presentation depicting key points, free and reduced lunch

maps, and historical percentage by race/ethnicity.

* Title 1

The Community Eligibility Provision (CEP) program at these schools allows for all students enrolled to receive free lunch as a result of the neighborhood and student level poverty at the building. Lunch applications are not collected from families at these buildings and identification of free or reduced lunch eligibility is only done via direct certification with the state or through a family application from another school.

2021-22 DISTRICT FREE AND REDUCED-PRICE LUNCH PROGRAM OMAHA PUBLIC SCHOOLS

December 13, 2021

KEY POINTS

- OPS PK-12 student participation in the Free and Reduced-Price Lunch (FRPL) program is 69.5 percent for 2021-22. This percentage represents a <u>15.3</u> percentage point increase since 2002-03 and a <u>7.9</u> percentage point decrease since 2020-21.
- The number of students participating the in the FRPL program has increased by 44 percent since 2002-03, growing from 24,933 students in 02-03 to 35,903 in 2021-22.
- Consistent with prior years, OPS student participation is higher at elementary grades than at the secondary grades with <u>71.3</u> percent of PK-6 students enrolled in the FRPL program compared to <u>67.1</u> percent of students in grades 7-12.
- The Free and Reduced-Price Lunch (FRPL) program percentages included in this report are likely artificially low because of the USDA waiver allowing school district to serve all students school meals free of cost in 2021-22. This practice lowers the number of meal applications received from families who are not directly certified.
- The Average FRPL percentage for Douglas and Sarpy County public school districts in 2021-20 is 46.4 percent while roughly 46 percent of all public school students in the state participate in the FRPL program.

KEY POINTS

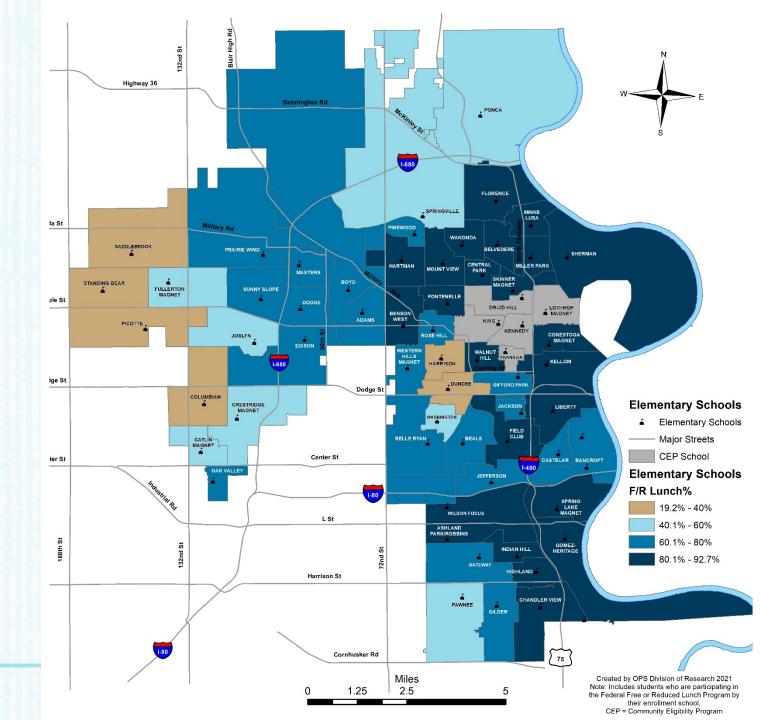

- In OPS, of the 35,903 PK-12 students who participate in the FRPL program, <u>59.6</u> percent of these students qualify for Free lunch rather than Reduced-Price lunch which indicates a more intense level of socio-economic need.
- Although not the most precise indicator of poverty, student participation in the FRPL program is the only indicator of socio-economic status universally available to public schools across the nation and has been shown to be highly predictive of district and school level performance (status scores) on summative, point-in-time national and state assessments.
- The Community Eligibility Provision (CEP) program at five elementary schools allows for all students enrolled to receive free lunch as a result of the neighborhood and school poverty levels. Lunch applications are not collected from families at these buildings and identification of free or reduced lunch eligibility is only done via direct certification with the state or through a family application from another school.
- This report uses the F/R lunch status as of 10/26/2021 for students enrolled on 10/1/2021.

OMAHA PUBLIC SCHOOLS FREE & REDUCED LUNCH PERCENT BY ENROLLMENT ELEMENTARY SCHOOL (K-6): 2021-22

The highest FRPL populations are located in the eastern portion of the district generally east of 72nd Street. The OPS district FRPL percentage is 69.5%.

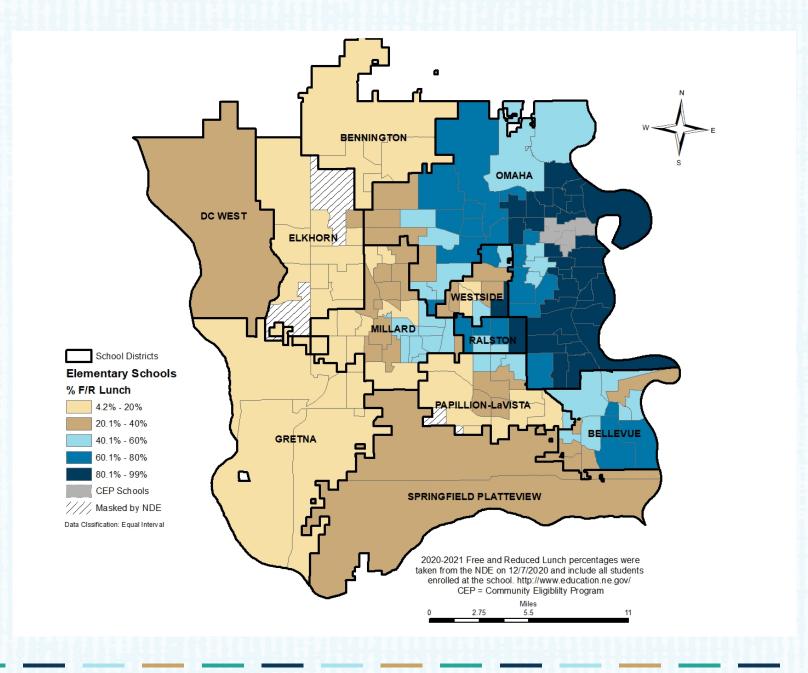

FREE & REDUCED LUNCH PERCENT BY ELEMENTARY SCHOOL ENROLLMENT: 2020-21

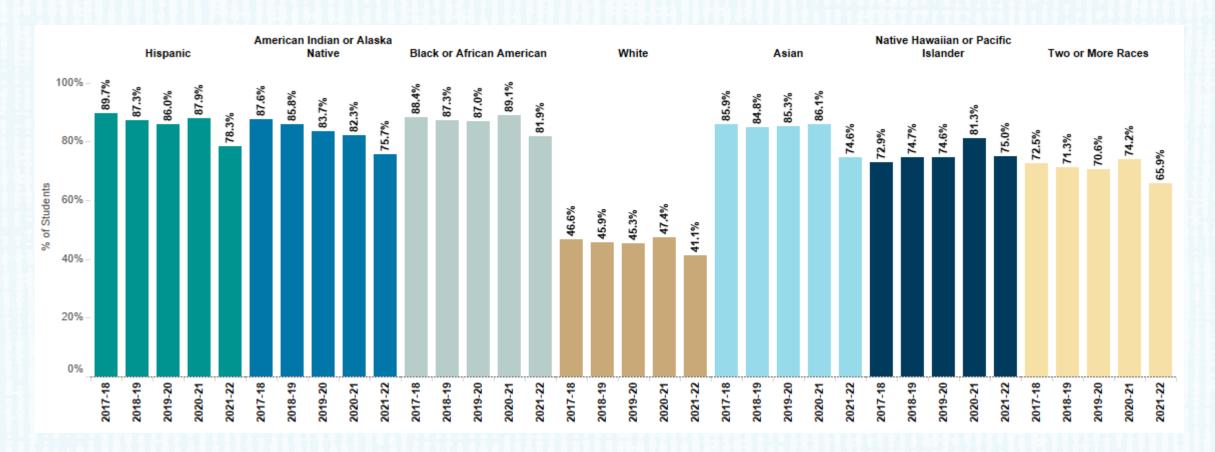

Based on the FRPL population enrolled across Douglas and Sarpy County elementary schools, poverty is generally concentrated in the urban core of the two-county area and less pronounced in outlying suburban areas. On average, 47% of all public school students across the two counties participate in the FRPL program.

Note: 2021-22 Nebraska Department of Education FRPL data were not available at the time this report was produced.
