# WELCOME MESSAGE

Our mission at Omaha Westview High School is to provide educational opportunities for all students to achieve academic success through our multiple pathways and to develop leaders who will become responsible citizens in our communities. This mission takes an entire village of parents, staff, and community partners working together to ensure a positive learning environment where all students reach their fullest potential.

The Westview staff is ready and willing to help our students achieve success through numerous resources and variety of opportunities. We encourage each student to review, study and understand the course manual, to select the appropriate courses that allow that success and to develop to their fullest potential.

We want our students to challenge themselves academically, select courses that prepare them for their future, and that motivate them from day to day. The goal is for our students to be at school every day, enjoy the atmosphere of learning, be engaged and responsible for their learning. The goal is to select courses that will inspire each student to be their best. Together WE Achieve More. We are a TEAM!

Thomas Lee

# OUR VISION & MISSION

## VISION

To create a strong community of engaged learning where our students are our top priority. Our students and staff incorporate teamwork to promote leadership and achievers of success.

## MISSION

We strive to have a strong community of engaged students driven to learn, lead, and succeed. Our goal is to shape our students to be leaders of society by promoting collaboration, confidence, and academic excellence.

# THE PATHWAYS of Westview High School

## COLLEGE AND CAREER ACADEMIES & PATHWAYS

### Sustainability

Creating a future for multiple generations through research, data, and ingenuity. Through our Sustainability pathways, students will explore engineering, environmental studies, clean energy research, and more to help build a more carbon-neutral, sustainable future.

#### Civil & Community Engineering

Learn a variety of engineering and design professions that deal with the design, construction, and maintenance of the environments in which humans live.

#### Clean Energy Research & Development

Investigate professions relating to the research, installation, design, maintenance, and auditing of clean renewable energy systems that can be used for electricity generation, space and water heating and cooling, and transportation.

#### Environmental Studies

Explore the interdisciplinary fields and professions that examine the interplay between the social, legal, management, and scientific aspects of environmental issues.

### Health Science

Creating a future for multiple generations through research, data, and ingenuity. Through our Health Science pathways, students will explore biomechanics & research, therapeutic services, human performance & sports medicine, and more to help build a more healthy, active future.

#### Biomechanics & Research

Study the field of health that researches the principles of movement mechanics to understand joint reconstruction, bone adaptation, and joint mechanics to treat disorders and injuries.

#### Therapeutic Services

Examine the variety of therapeutic services within the healthcare profession that use assessment and intervention to develop, recover, or maintain movement, speech, meaningful activities, or occupations.

#### Human Performance & Sports Medicine

Explore the field of medicine that deals with physical fitness and the treatment and prevention of injuries related to sports and exercise.

The Pathways of Westview High School grant students the opportunities to explore their career interests in the themes of education, sustainability, business, and health. Within their chosen pathways, students are supported by our Westview Advisory Committee comprised of business leaders in the community who support learning experiences and grant them access to scholarships, mentors, industry-grade materials, field experiences, subject matter experts, shadowing opportunities, internships, and service-learning projects in their fields of interest

**COLLEGE AND CAREER  
ACADEMIES & PATHWAYS**

## Education

Creating a future for multiple generations through leadership, innovation and instruction. Through our Education Pathway, students will explore teaching, school leadership, school support, and more to help build well-rounded, scholastic communities.

### Teaching

Explore the foundation of education by starting in the classroom with best instructional practices, educational philosophies, and theories rooted in development.

### School Leadership

Learn about the various leadership roles outside of the classroom that require collaboration, communication, and civic skills to promote school operations such as administration, counseling, and curriculum support.

### School Support

Investigate the diverse roles of education that enhance individual and team performance and help students achieve goals and become resilient achievers such as social work, paraprofessionals, coaching, psychology, library media, and more.

## Business

Creating a future for multiple generations through leadership, data, technology, and ingenuity. Through our Business pathways, students will explore business management and insurance, entrepreneurship and virtual enterprise, marketing, and business technology to help build strong economies and thriving communities.

### Business Management & Insurance

Analyze the areas of business that incorporate leadership and critical thinking to oversee daily operations, prevent financial loss, and ensure institutional and personal security.

### Entrepreneurship & Virtual Enterprise

Study the fields of business that allow professionals to start and operate their own business as well as web-enabled information networks that connect companies who participate in virtual business.

### Marketing

Explore the fields of marketing to develop skills that promote business, advertise specials, and attract clientele by incorporating innovative practices.

### Business Technology

Investigate professions relating to business technology and their use of science, data, engineering, and information applications to achieve business goals and to communicate to their clients.

# ACTIVITIES

Westview offers a wide variety of clubs that allow students to collaborate and engage with their peers. Extra-Curricular activities promote socialization, skill-building and interest exploration. For more information on clubs, please reach out to the sponsors below.

# ATHLETICS

Westview offers 21 NSAA sanctioned sports. Student athletes have access to well developed facilities including a weight room, indoor batting cages and an on-site pool. Our coaching staff puts an emphasis on building the whole person and incorporates mentoring and personal development in their programs. A large portion of the coaching staff are on-site as staff in the building which allows for relationship building and support on the field and in the classroom.
