## OPS Non-Discrimination Policy

Omaha Public Schools does not discriminate on the basis of race, color, national origin, religion, sex (including pregnancy), marital status, sexual orientation, disability, age, genetic information, gender identity, gender expression, citizenship status, veteran status, political affiliation or economic status in its programs, activities and employment and provides equal access to the Boy Scouts and other designated youth groups. The following individual has been designated to accept allegations regarding non-discrimination policies: Superintendent of Schools, 3215 Cuming Street, Omaha, NE 68131 (402-557-2001). The following persons have been designated to handle inquiries regarding the non-discrimination policies: Director for the Office of Equity and Diversity, 3215 Cuming St, Omaha, NE 68131 (531-299-0307).

Las Escuelas Públicas de Omaha no discrimina por motivos de raza, color, origen nacionalidad, religión, sexo (incluyendo el embarazo), estado civil, orientación sexual, discapacidad, edad, información genética, identidad de género, expresión de género, estatus de ciudadanía, condición de veterano, afiliación política o condición económica en sus programas, actividades y empleo y se proporciona un acceso equitativo a los niños exploradores (boy Scouts) y otros grupos juveniles. La siguiente persona ha sido designada para aceptar las alegaciones en relación con las políticas de no discriminación: el Superintendente de Escuelas, 3215 Cuming Street, Omaha, NE 68131 (402-557-2001). Las siguientes personas han sido designadas para manejar las preguntas con respecto a las políticas de no discriminación: Director de la Oficina de Equidad y Diversidad, 3215 Cuming St, Omaha, NE 68131 (531-299-0307).

The 2024-2025 Buena Vista High School Course Guide offers a comprehensive look at the curricular offerings at Buena Vista High School. Our students can participate in advanced coursework in many of the core subject areas in the form of weighted honors courses, Advanced Placement (AP) courses, and dual enrollment courses through several community colleges, universities, proving our students the opportunity to earn college credit concurrently with the completion of their high school requirements.

At Buena Vista High School we are committed to providing all students with a rigorous and relevant educational experience in a pathway model that offers each student more personalized attention, recognition and care from teachers, staff, and peers and prepares all students for college, career, and life. After high school, Buena Vista graduates may continue their education at four-year colleges and universities, community colleges, technical institutions, the military, or in apprenticeship programs as they translate their success here into their own individual academic, career, and life goals.

For this course guide to meet your needs, you must use it wisely. Please consider your interests, aptitudes, and educational goals before you select your course of study. The decisions you make today will have an impact on your educational and career plans. I encourage you to contact a school counselor if you have any questions regarding your high school academic plan of student. The selection of a pathway, individual courses, and the development of your high school academic plan is a very important part of your high school education.

I am honored to serve as your principal and the first principal of Buena Vista. We are all a part of establishing a collective legacy of an amazing school focusing on excellence, innovation, and community. I look forward to the many successes that you will achieve at Buena Vista.

Go Bison!
Your Principal,
Dr. Carrie Carr

## 24-25 Course Selection Process 8 Schedule

Students will begin course selection for the following school year in February. Students are encouraged to familiarize themselves with the Buena Vista course guide and the Omaha Public Schools graduation requirements. Each student will meet individually with their counselor in the spring for a planning session which will include locking in selections for courses for the following year. It is important students consider course choices and discuss with families and teachers and case managers to prepare for course selection with their counselors. Students' abilities, interests, 504 and IEP plans, and individual goals are essential factors when making selections.

During February and March, students select and finalize their courses for the FOLLOWING school year.
Please refer to the online Buena Vista Course Catalog (available at ops.org/BuenaVista). The course catalog includes a course planner to outline required and elective courses, as well as course descriptions with grade levels and prerequisites.

## 10th - 12th Grade Course Selection

## During late January and February; current

Buena Vista students will be directed to update their Academic Planner in their student portal during their Bison Block class. They will have until February $23^{\text {th }}$ to work with their parents, guardians, and teachers to select the appropriate classes in the planner and return their signed course selection sheet to their Bison Block teacher. The course selection sheet will be signed by the parent/guardian, the student, and the counselor and saved as a record of selections.

Between February $23^{\text {th }}$ and March $6^{\text {th }}$, high school counselors will meet with Buena Vista students 1:1 to finalized and verify course selections, level placement, career pathways, and alternative electives. Selections will be locked in at this time. Once locked, the counselor must be contacted to make adjustments before the end of the school year.

## 9th Grade Course Selection

## Making Course Changes

Following spring registration, students can adjust courses based on conflicts in their schedules. Course changes after the spring are only allowed under the following circumstances:

- If a course was completed during summer school a student can advance to the next level
- If a course was failed during the previous year and therefore a student cannot advance
- If there is a schedule conflict that cannot be adjusted without dropping or changing a course
- If a student needs to meet graduation requirements
- Administrative discretion due to safety or behavior concerns

## $9^{\text {th }}$ GRADE HONORS PLACEMENT GUIDELINES

The following honors courses are suggested for students who meet the guidelines listed.

## ENGLISH

Honors English 1-2:
Any one of the following*:

- Grade of " A " in English Language Arts-8 1-2
- Grade of " B " or higher in Honors English Language Arts-8 1-2
- MAP Reading score at or above $\mathbf{2 3 5}$ (Fall)

## SOCIAL STUDIES

## Honors US History 1-2:

Any one of the following*:

- Grade of " B " or higher in Social Studies 81-2
- MAP Reading score at or above 218 (Fall)

## MATH

## Honors Geometry 1-2:

Any one of the following*:

- Grade of " A " in Algebra 1-2
- Grade of " B " or higher in Honors Algebra 1-2
- MAP Math score at or above 235 (Fall)

Honors Algebra 3-4: (Requires an Acceleration Agreement on file with GATE office)

## SCIENCE

## Honors Biology 1-2:

Any one of the following*:

- Grade of " $A$ " in Physical Science 1-2 (Current $9^{\text {th }}$ Grade Only)
- Grade of " B " or higher in Honors Physical Science 1-2
- MAP Science score at or above 225 (Fall)

## Honors Physical Science 1-2:

Any one of the following*:

- Grades of " B " or higher in Science 81-2 AND concurrent enrollment in Algebra 1-2 or higher math course
- MAP Math Score at or above $\mathbf{2 3 4}$ (Fall) AND MAP Science Score at or above $\mathbf{2 2 3}$ (Fall)
*Students develop cognitively, socially and emotionally along different time and interest continuums. For students who are willing and interested in advanced coursework, but do not meet the course prerequisites, an exception may be requested through a conversation involving building staff, parents/guardians, and the student.

Honors Pre-Calculus/Trigonometry: (Requires an Acceleration Agreement on file with GATE office)

## SCIENCE

Honors Biology 1-2:
Any one of the following*:

- Grade of " $A$ " in Physical Science 1 and 2 (Current $9^{\text {th }}$ Grade Only)
- Grade of "B" or higher in Honors Physical Science 1 and 2
- MAP Science score at or above 225 (Fall)

## Honors or Advanced Placement Elective Science

Any one of the following*:

- Grade of " A " in $9^{\text {th }}$ grade non-Honors science class
- Grade of "B" or higher in Honors 9 th grade science class
- MAP Science score at or above 225
*Students develop cognitively, socially and emotionally along different time and interest continuums. For students who are willing and interested in advanced coursework, but do not meet the course prerequisites, an exception may be requested through a conversation involving building staff, parents/guardians, and the student.

## COURSE DROP GUIDELINES

Dropping a course after the first 15 days of the semester will result in a grade of an " $F$," which is included in grade point average calculations. Requests to change or drop a course will be initiated by the student or parent/guardian to the school counselor.
Procedures for requesting a withdrawal from a course:

- Initial conversation with counselor and student, and parent notification
- Counseling conference with student and teacher, focused on problem-solving
- Follow-up conversation with counseling if resolution is not reached with student and teacher
- Team Conversation with stakeholders (student, parent, teacher, counselor, CS, case manager, admin, etc...)
**Please use the "Schedule Correction Request Form" which can be found in the counseling office if a change is pursued after problem-solving.
- Administration and Curriculum Specialist / Department Head review and decision making.

Requesting a drop or a change does not mean that it will be approved. If a drop is approved there may be no alternative course for the student to take; and they may be assigned a study hall, and office aide period, or an open block if they are eligible for this opportunity.

## COURSE PLACEMENT APPEALS PROCESS

All secondary Omaha Public Schools offer procedures for appealing course placement (i.e. AP, Honors etc.). Each building may have specific forms and deadlines, however, the following general procedures shall apply:

Level One: Counselor, Curriculum Specialist, Assistant Principal or Principal. A student or parent with a course placement appeal may first discuss the matter with the counselor or building level administrator involved, with the objective of resolving the issue informally.

Level Two: Chief Academic Officer (Department of Curriculum, Instruction and Support) If the course placement appeal is not resolved at Level One, and the individual still wishes to pursue the appeal, they may formalize the request in writing addressed to the Chief Academic Officer of Curriculum, Instruction and Support at 3215 Cuming St. Omaha, NE 68131.

Level Three: Superintendent. If the appeal is not resolved at Level Two, and the individual still wishes to pursue the appeal, they may formalize the request to the superintendent of schools after receiving a written response from the Chief Academic Officer.

These steps shall be taken promptly to accommodate the registration of courses for the school year in question.

## CREDIT RECOVERY GUIDELINES

The purpose of credit recovery is to provide opportunities for students to earn credits to meet graduation requirements for courses they have failed. Credit recovery involves the student retaking the failed course(s) and focusing on the course content standards to demonstrate proficiency on the assessments. The focus is proficiency related to course content, not seat time.

1. Credit recovery may be delivered in various methods and during a variety of times (Summer School, Edmentum time, after school, during the school day).
2. Credit recovery may be delivered in a traditional classroom or through a blended learning experience (in class with an endorsed teacher using online learning modules).
3. Teachers who provide credit recovery through online or virtual or blended learning must be certified teachers endorsed for the course they are teaching.
4. Although students may complete online classes before the end of the term, grades will still be posted during the standard grading windows.
5. The student should follow the appropriate course sequencing.
6. Students should not enroll in consecutive courses simultaneously (English 2 and English 2).
7. Any exception to the three-course limit must be identified in an individual learning plan, in an alternative program, and approved by the Chief Academic Officer for Curriculum, Instruction and Support.
8. Students should be enrolled in no more than three online courses at a time.
9. Timely teacher content and feedback is essential for student learning.
10. Review the Edmentum Credit Accrual and Recovery Practices Handbook for specific guidelines for online practices.

## Infinite Campus

## Infinite Campus - STUDENT PORTAL \& PARENT PORTAL

## INSTRUCTIONS FOR LOGGING INTO INFINITE CAMPUS STUDENT PORTAL:

- Go to campus.ops.org
- User name is s, followed by first five letters of last name, first letter of first name, and last three digits of student ID \#. If the last name is fewer than five letters, the remaining letters will be X (ex. \#123456 John Smithssmithj456, \#654321 Jane Doe-sdoexxj321).
- Password is six-digit student ID \#.
- Students can also access the Student Portal from the app on their iPad.

## INSTRUCTIONS FOR LOGGING INTO INFINITE CAMPUS PARENT PORTAL:

The Parent Portal is where PARENTS AND GUARDIANS complete their student's annual registration paperwork, monitor their student's grades and attendance, and access a variety of other resources. Every parent or guardian should have an account.
**Using the require parent portal requires that you have an email address. If you do not have an email address you can get a free one online at accounts.google.com or outlook.live.com.

Find and download the application from Google Play, Amazon Apps or App Store. With the app you can choose to receive PUSH notifications! NOTE: To use the app, mobile devices must be on an Android version of 4.4 or later and iOS devices must be on a version of 9.0 or later.

# Omaha Public School 10TH $^{\text {TH }}$ Grade Human Growth Opt-Out 

## High School - Grade 10

In 2016 the Board of Education of the Omaha Public Schools District approved updated content standards for Human Growth and Development for grades $4^{\text {it }}-8^{\text {lh }}$ and $10^{\text {lh }}$. The Board of Education provides parents and guardians the opportunity to "opt" their child out of individual lessons taught or the entire course. All students are enrolled in a quarter long class at middle school unless indicated below. If you have any questions about the lessons, please contact your child's Human Growth teacher. Please return this form to the school counselor if you are opting your child out of the course or opting your child out of a content standard or topic.

If this form is not returned, your child is enrolled in the Human Growth and Development.

| Content Standards | Please sign your full name to opt your student out of any specific content. |
| :---: | :---: |
| I wish to "opt" my child out of the entire Human Growth \& Development Course. |  |
| 1. Describe how relationships can be impacted by sense of self. (2 days) |  |
| 2. Give examples of the impact media has made on teens' perceptions of relationships and sexuality. (2 days) |  |
| 3. Explain the importance of having hope and a growth mindset in your life. (4 days) |  |
| 4. Examine how values and goals impact decision-making. (5 days) |  |
| 5. Demonstrate healthy communication practices, (6 days) |  |
| 6. Analyze relationships for healthy and unhealthy characteristics. (7 days) |  |
| 7. Explain the impact of sexual abuse, sexual assault and domestic abuse on the individual and family. ( 11 days) |  |
| 8. Describe ways to show courtesy and respect for others. (2 days) |  |
| 9. Assess accurate information about gender identity, biological sex, gender expression and sexual orientation. ( 1 day) |  |
| 10. Explain the impact of alcohol or other drug use and abuse by minors. ( 8 days) |  |
| 11. Describe how environment and life situations influence choices for alcohol and other drug use or nonuse. ( 7 days) |  |
| 12. Explain the male and female reproductive systems. (3 days) |  |
| 13. Describe the importance of medical check-ups. (2 days) |  |
| 14. Explain the benefits of abstaining from sexual activity. (3 days) |  |
| 15. Compare family planning methods for effectiveness, ease of use, cost and possible side effects. (10 days) Family Planning, Adoption Plan, Emergency Contraception, Terminating the Pregnancy |  |
| 16. Describe life consequences often faced by young families. (2 days) |  |
| 17. Describe the importance of prenatal care for the developing fetus. (5 days) |  |
| 18. Explain how to prevent the spread of sexually transmitted diseases. (10 days) |  |
| 19. Explain the current status of Nebraska Law. |  |

Copy 1 - Principol

## What is Advanced Placement (AP)?

- The opportunity for students to take college level courses in a high school setting and test for college credit.
- Instructors who are trained, dedicated, and successful in the instruction of AP curriculum.
- Students who will be taught the skills and concepts to be successful on the AP Exam as well as other college coursework.
- Students who develop the study habits necessary for rigorous coursework.
- Students who stand out in the college admissions process.
- Students who are willing to work and demonstrate their commitment to academic excellence.
- Students who assume the responsibility of reasoning, analyzing, and understanding for oneself.

Younger students in preparation for AP participation should enroll in the most challenging courses they can handle. We hope you consider participating in Buena Vista's AP program. Please reach out to your counselor if you have any questions.

# College Credit for High School Courses <br> ОМАН <br> Public <br> Schools <br> <br> Dual Enrollment Program 

 <br> <br> Dual Enrollment Program}

## What is Dual Enrollment?

Dual Enrollment provides high school students the opportunity to take college-credit bearing courses taught by college-approved high school teachers in the student's home high school building. The term 'Dual Enrollment' means a program offered by a partnership between at least one institution of higher education and at least one local educational agency through which a secondary school student who has not graduated from high school with a regular high school diploma is able to enroll in one or more postsecondary courses and earn postsecondary credit that-
(A) is transferable to the institutions of higher education in the partnership; \&
(B) applies toward completion of a degree or recognized educational credential as described in the Higher Education Act.

Students gain exposure to the academic challenges of college while in their supportive high school environment, earning transcripted college credit at the time they successfully pass the course. Essentially, dual enrollment prepares students for success in college and careers by increasing access to higher education, lowering the cost of college, and shortening student time to earning a degree or certification.

Dual Enrollment is currently offered in OPS through two primary programs:

1) Advanced Placement (AP)
2) Career Education (CE).

## Dual Enrollment Benefits.

Reduced Tuition Cost. Participating students have a reduced tuition rate or may qualify for FREE tuition through a scholarship program authorized by the Nebraska State Legislature.

## MCC: \$50 per course.

UNO: \$250 per course.
Midland U: \$250 per course
*Tuition Costs are determined by the postsecondary institution.
The Omaha Public Schools District provides the textbook and all course materials necessary for completion of the dual enrollment course. Tuition payment is the responsibility of the student. If a student qualifies for federal needs-based programs, they may be eligible for FREE tuition. The ACE scholarship program pays mandatory tuition fees for qualified high schools students to enroll in dual enrollment courses. The basic criteria for high school students to qualify for the ACE scholarship is their eligibility status to receive assistance under a variety of federal programs, most notably the free and reduced lunch program. Students must work with a building official or counselor to complete the online ACE application. More information on ACE can be found at http://ccpe.state.ne.us/publicdoc/ccpe/Financial\ Aid/ACE/

Credits Transfer. Students begin creating an official college transcript with participation in a dual enrollment course. College institutions determine the transferability of credit, but typically credits transfer as follows:

AP Courses: transfer as general education requirements in either humanities, social sciences, natural sciences, or mathematics to 4-year/2-year institutions

CE courses: transfer as required credits at the issuing institution towards an associate's degree or certification, or to a similar 2-year institution with like programming, or may transfer as elective credits at 4year institutions.

Students should request transcripts from any college he/she has earned dual enrollment credit with and provide them to the college/university during the admission process. It is the student's responsibility to disclose any college credit earned during high school, whether from an AP or CE dual enrollment course, to their college advisor.

College-bound student-athletes will need to meet the following academic requirements to practice, receive athletics scholarships, and/or compete during their first year.

Core-Course Requirement
Complete 16 core courses in the following areas:

## Full Qualifier

- Complete 16 core courses.
- Ten of the 16 core courses must be completed before the seventh semester (senior year) of high school.
- Seven of the 10 core courses must be in English, math or natural/physical science.
- Earn a core-course GPA of at least 2.300.
- Earn the ACT/SAT score matching your core-course GPA on the Division I sliding scale (see back page).
- Graduate high school.

## Academic Redshirt

- Complete 16 core courses.
- Earn a core-course GPA of at least 2.000.
- Earn the ACT/SAT score matching your core-course GPA on the Division I sliding scale (see back page).
- Graduate high school.

## Full Qualifier:

College-bound student-athletes may practice, compete and receive athletics scholarships during their first year of enrollment at an NCAA Division I school.

## Academic Redshirt:

College-bound student-athletes may receive athletics scholarships during their first year of enrollment and may practice during their first regular academic term, but may NOT compete during their first year of enrollment.

## Nonqualifier:

College-bound student-athletes cannot practice, receive athletics scholarships or compete during their first year of enrollment at an NCAA Division I school.

## Test Scores

When a student registers for the SAT or ACT, he or she can use the NCAA Eligibility Center code of 9999 so his or her scores are sent directly to the NCAA Eligibility Center from the testing agency. Test scores on transcripts will NOT be used in his or her academic certification.
A combined SAT score is calculated by adding reading and math subscores. An ACT sum score is calculated by adding English, math, reading and science subscores. A student may take the SAT or ACT an unlimited number of times before he or she enrolls full time in college. If a student takes either test more than once, the best subscores from each test are used for the academic certification process.
If you took the SAT in March 2016 or after, and plan to attend an NCAA Division I college or university in the 2018-19 or 2019-20 academic years, use the following charts to understand the core-course GPA you need to meet NCAA Division I requirements.
For more information on the SAT, click here to visit the College Board's website.

## 2018 DIVISION II NEW ACADEMIC REQUIREMENTS

College-bound student-athletes first enrolling at an NCAA Division II school on or after Aug. 1, 2018, need to meet new academic rules to practice, compete and receive athletics scholarships during their first year.

## Core-Course Requirement

Complete 16 core courses in the following areas:

## Full Qualifier

- Complete 16 core courses.
- Earn a core-course GPA of at least 2.200.
- Earn the ACT/SAT score matching your core-course GPA on the Division II full qualifier sliding scale (see back page).
- Graduate high school.

## Partial Qualifier

- Complete 16 core courses.
- Earn a core-course GPA of at least 2.000.
- Earn the ACT/SAT score matching your core-course GPA on the Division II partial qualifier sliding scale (see back page).
- Graduate high school.

## Full Qualifier:

College-bound student-athletes may practice, compete and receive athletics scholarships during their first year of enrollment at an NCAA Division II school.

## Partial Qualifier:

College-bound student-athletes may receive athletics scholarships during their first year of enrollment and may practice during their first regular academic term, but may NOT compete during their first year of enrollment.

## Nonqualifier:

College-bound student-athletes may not practice, compete or receive athletics scholarships during their first year of enrollment at an NCAA Division II school.

International Students: Please visit ncaa.org/international for information and academic requirements specific to international student-athletes.

## Test Scores

If you took the SAT in March 2016 or after, and plan to attend an NCAA Division II college or university in the 2018-19 or 2019-20 academic years, use the following charts to understand the core-course GPA you need to meet NCAA Division II requirements.
A combined SAT score is calculated by adding reading and math subscores. An ACT sum score is calculated
by adding English, math, reading and science subscores. You may take the SAT or ACT an unlimited number of times before you enroll full time in college. If you take either test more than once, the best subscores from each test are used for the academic certification process.
For more information on the SAT, click here to visit the College Board's website.

##  What every student needs to know about grading

## OPS Grading Scale

Can I redo my work for full credit?

- Students may be allowed to redo/revise work until the end of the unit, based on teacher's professional judgement and evidence. Talk with your teacher.
If I don't turn in my work on time, what happens?
- Work not turned in at all will be recorded in Infinite Campus (district grade book) as an M for missing which calculates to a score of zero.

Am I allowed to turn in coursework late?

- Late coursework may be accepted for full credit until the end of the unit based on the teacher's professional judgment and evidence collected throughout the unit.
- Accepted late work will replace $M$ with the score earned by the student.

Are some assignments worth more than others? $\qquad$

- When entering grades in the grade book, teachers may assign greater weight to some major summative assignments.
- For example, the final exam may impact a student's summative grade more than a unit test. This information will be communicated to students at the time the assessment is announced.

## How much time should I spend on homework?

You should expect ten minutes (or more) per de times your grade level.

- 3 rd grade $=30$ minutes
- 6 th grade $=1$ hour
- 12th grade $=2$ hours

Time may vary depending on classes.

## How can I <br> check my grades?

- You can look on the Student Portal. campus.ops.org/campus/portal/ops.jsp
- You can get the Infinite Campus app on your phone. The code is YJSVKH.
- Current information can be viewed every two weeks as teachers update their grade books.

## Omaha Public Schools

Common Grading Practices

STANDARDS are what you should know and be able to do.

GRADING measures how well students master key concepts (or standards).

## What is a rubric?

It explains what an Advanced, Proficient, or Basic level of mastery is needed for a specific assignment, test, or project.

- 35 percent of your grade
- Work done in class, e.g., homework assignments, short quizzes, or any essay
- Can happen in class or outside of class

## Summative Assessments - at the end of learning

- Lets your teacher know how well you have mastered the standards
- 65 percent of your grade
- Major projects, a unit test, a research paper, a speech, etc.
- Can happen in class or outside of class.

No. Work done in groups will be graded individually. Group grades are never used.

How do I earn grades on an assessment?

Teachers assess multiple levels of learning K-12. Secondary teachers create leveled formative and summative assessments.
(Advanced, Proficient, Basic)

ADVANCED is when you did all the work and exceed what you're supposed to do.
$\Rightarrow$ You have performed consistently at a high level of difficulty, complexity, or fluency that is above the expected course content/grade level standard.

PROFICIENT is when you did what you are supposed to do.
$\Rightarrow$ You have performed at the level of difficulty, complexity, or fluency that is at the expected course content/grade level standard.
BASIC is when you understand the content information and vocabulary.
$\Rightarrow$ You have performed at the level of difficulty on some of the expected course content/grade level standards, but not all.

## - NEBRASKA CAREER EDUCATION MODEL :3

## Ways to Get Involved at Buena Vista

Clubs and activities are an important part of a student's educational experience and can enhance it in many ways. From connecting with peers and teachers, to providing leadership opportunities, clubs and activities at Buena Vista offer a variety of skill sets and opportunities for camaraderie and fun. We strongly encourage students to try new things as well as get involved in activities that interest them. Students are also welcome to start new clubs with approval from the Activities Director and Principal. The list of clubs and activities will continue to grow as our school grows.

## Clubs and Activities

Art Club
Bison Buddies
Black Student Leadership
Choir, including Show Choir
Concert and Marching Band, Percussion
Drama Club
Educators Rising
Federation of Christian Athletes (FCA)
Gay Straight Alliance (GSA)

## The Buena Vista High School Freshman Academy

Mission: The Freshman Academy will introduce and guide students through the transition to high school while focusing on their academic success and foundations for their high school, college, and career goals.

Academy Focus: The Freshman Academy will be a cohorted, personalized learning community within our school. Teachers from different subject areas will work together to integrate foundational academic and social emotional skills for students to succeed. Students are grouped together for certain periods of the day, which promotes a family-like atmosphere and results in close student-teacher relationships.

| Required <br> Academy Class | Freshman Seminar: This course will encourage students to explore <br> academic and career options. Freshman students will have opportunities to <br> learn study skills, social emotional skills, and build school culture. |

## Buena Vista Career Pathways

The Omaha Public Schools College \& Career Academies and Pathways ensure students gain real-world career experience while maintaining the foundation of core classes and access to advanced academics, fine arts and electives. During their Freshman year in the Freshman Seminar course, students will select one of nine career pathways at Buena Vista High School. During their $10^{\text {th }}-12^{\text {th }}$ grade year, they will take a minimum of one elective class per year inside of that selected pathway.

Available Certifications
Microsoft
Adobe
Business Partners
Peter Kiewit Institute, AIM Institute, Metropolitan Community College, University of Nebraska Omaha, One World Community Health Centers, Inc., YMCA of Greater Omaha

Specialized Diploma
Cambridge Advanced International Certificate of Education (AICE) Seal of Biliteracy
*Customize Your Pathway: The Customize Your Pathway is designed for students interested in a highskill, high-wage and in demand career not covered by a current pathway offered at BV. Students and families will collaborate with school staff to organize a series of existing courses into a pathway aligned with their goals after graduation. Examples of what Customize Your Pathway might look like include:

| Vocal Arts | Business Management | Criminal Justice | Pre-Med |
| :---: | :---: | :---: | :---: |
| Treble Chorus (10) | BMIT / Entrepreneurship (10) | Psychology / Sociology (10) |  |
| H Show Choir (11) |  |  | Med Term / Healthcare (10) |
| Concert Choir (11) <br> H Show Choir (12) <br> Chamber Chorus (12) | Marketing 1-2 (11) + FBLA | Juvenile Law \& Justice (11) | Anatomy \& Physiology (11) |
| Accounting 1-2 (12) + FBLA | Forensic Science 1-2 (12) | AP Psychology (11) |  |
| AP Biology (12) |  |  |  |

Any of the Career programs through the Omaha Public Schools Career Center and the Metro Community College Career Academy Programs, assuming that the student participates for consecutive years to complete a Career thread.

OPS CAREER CENTER

## Omaha Public Schools Career Center

Buena Vista and the Career Center will offer several courses that will help students who have a specific career in mind. While planning out what courses to take, students should visit the school's website to view career pathways that Buena Vista and OPS schools offer. Students attending the Career Center programs for 3 consecutive years might be eligible to apply this as their selected Career Pathway in lieu of other onsite pathway programs. $9^{\text {th }}$ Grade students are not eligible to attend the Career Center.

## In High Wage, High Skill, \& High Demand Careers

THE PATHWAYS of The Career Center

Automotive Technology
( $10,11,12$ ) 2 Credrs/Semester

- Work on domestic and foreign cars and trucks in a tigh-tech precision industry
- Use the same advanced dagnostic and hand tod equipment as industry professionals to troubleshoot complex automotive systems.
- Maintain, repair, and fine-tune a wide range of vehicle engine performance atongside ASE tectricians.
Automotive Collision Repair
(10,11, 12) 2 Creats/Semester
- Develop skils and techriques used by professional in assembly, deassembly and non-structural repar.
- Repair, remove and replace sato body parts.
- Professionally apply undercoat, peint and topocast to create a protessionel finish.
Construction
( $10,11,12$ ) 2 Credis/Semester
- Operate a wide range of hand and power tools for residertial and commercial projects.
- Develop important hands-on sils in the areas of estimating, framing interior and exterior work. - Work alongside professional mentors from architecture, construction and engineering fields.
Electrical Sy stems Technology
( $10,11,12$ ) 2 Credts/Semester
-Adrance wth industry recognized skils through the Omaha Joint Electrical Apprenticeship and Traing Committee program.
- Instal electrical fotures according to bueprints and schematics.
- Gain industry recognized skils from residential and commercial wing projects and internship.
Welding
( $10,11,12$ ) 2 Credits/Semester
- Apply mutiple weiding tectriques to join, cuf or manipuate metal.
- Develop a wide variety of tectriques for high wage, high demand careers.
- Experience hands-on instruction to enhence crtical thinking and problem scoving skilis.
"People are so friendly here, that's so different" \& "Best part of my day"-2022 students

Certified Nursing Assistant
(Must be 16 by course completion)
( 11,12 ) 2 Credts/Semester

- Prepere for a high demand career fied by completing the requirements for the State of Nebraska Certifed Nursing Assistant Certification.
- Obtain sklis though immersion in muttple aspects of the art and science of heathcare.
- Work alongside experienced regstered nurses in a Emergency Medical Technician
(Must be 18 by course completion)
(12) 2 Credis/Semester
- Attain essential Ife saving tectriques critical for a career in emergency medicine.
- Complete the requirements for the national registry EMT Icense.
-Assess, stablize, and transport patients during cirical experiences wth certified professionals.
Information Support \& Networking
( $10,11,12$ ) 2 Credns/Semester
- Prepere for a career in the diverse field of iformation technology.
- Ean ComptiA A + , Network+ \& Securily + Certrications
- Troutleshoot, dagnose and repar personal computers, networks and securty apperatus.
Digital Video Production
( $10,11,12$ ) 2 Credisis/Semester
- Operate specialzed equipment to create professional video and flm productions.
- Showcase skils in mutiple videa, flim, and broadcast news compettions.
UNMC High School Alliance
(11, 12) 2 Credts/Semester
- Experience unique and innovative science classes that are taught in partnership by UNMC facuty and certried high schod teacher on the UNMC campus.

Access UNMC High School Alliance Application at https://www.unmcedu/alliance/

## Zoo Academy

(11, 12) 2 Credts/Semester

- Experience unique and imovative science classes that are taught in pertnership by certified high school teachers on the Henry Doorly Zoo campus. (Nov. 2020 due date) Access Zoo Academy Application at https:/www.omahazoo.com/zooacademy

## To Apply for a Career Academy:

Applications are available December 1, 2023 from your high school guidance counselor, and online at www.mccneb.edu/careeracademv. All applicants must complete an application for MCC prior to submitting their Career Academy application. Application can be completed at www.mccneb.edu/apply.

Please submit the application to secondarypartnerships@mccneb.edu.
Application Deadline: March 8, 2024.
Questions:
If you have questions about the MCC Career Academy Program, please contact one of the following:
O Your high school guidance counselor
O Secondary Partnerships 531-MCC-2213 or secondarypartnerships@mceneb.edu

Buena Vista High School

# Buena Vista Course Catalog 24-25 

## Art

Applied Design 1-2 (9-12)
This course explores design in crafts, with emphasis on function, decoration, cultural context. Students will be introduced to notable crafts movements \& styles, \& use the critical process to examine their own work, \& examples from art history. Emphasis will be on understanding the relationship of form \& function in utilitarian \& decorative objects; as well as recognizing the effect of advances in technology on craft traditions. Students will be creating objects in a variety of media, demonstrating the use of elements \& principles of design \& understanding aesthetic theory \& the creative process. In addition to art production, students will use a variety of learning strategies including reading, analyzing \& responding to develop a deeper understanding of art \& craft.
Course ID: 110431/110432
Credits: 1 credit per semester
Art 1-2 (9-12)
This course offers beginning art students a foundation in basic drawing skills, design elements \& principles, \& color theory as they create original art works in a variety of media. In addition to art production, students will use a variety of learning strategies including reading, analyzing \& responding to develop a deeper understanding of art. Students will be examining important works of art from a variety of cultures \& time periods, participating in critiques of art works, \& discussing aesthetic issues.
Course ID: 110211/110212
Credits: 1 credit per semester

## Art 3-4 (10-12)

This course offers an expansion of skills \& knowledge of drawing \& design concepts, \& further exploration of techniques \& media, including watercolor and/or acrylic painting. Students will explore aesthetic is - sues, examine \& discuss historically important art works from a variety of cultures, using the language of art criticism. In addition to art production, students will use a variety of learning strategies including reading, analyzing \& responding to develop a deeper understanding of art.
Prerequisite: Completion of Art 1-2 with a C or better or teacher permission Course ID: 110251/110252
Credits: 1 per semester
Honors Art 5-6 (11-12)
This course offers serious art students the opportunity to apply the elements \& principles of design to advanced projects in a variety of media (i.e., various techniques of printmaking, painting, and/or sculpture). Students will engage in art criticism \& aesthetic discussion as they explore various time periods \& cultures from an art historical perspective. Honors requirements are: attend formal exhibits \& submit exhibit reviews/critiques; write an in-depth research paper; complete written abstracts about artists \& their work; refine individual work for exhibition and/or competition each semester; \& keep a drawing \& reflection sketchbook.
Prerequisite: Successful completion of Art 3-4 with a B or better both semesters \& art teacher approval.
Course ID: 110281 / 110282
Credits: 1 per semester
Honors Art 7-8 (12)
This course is a culmination of a sequential art experience for twelfth grade students. It provides selected students the opportunity to individualize projects to enhance their own styles in one or more media, while further exploring the philosophical \& historical aspects of art. Honors requirements are: attend formal exhibits \& submit exhibit reviews/critiques; write an in-
depth research papers; complete written abstracts about artists \& their work; refine individual work for exhibition and/or competition each semester; complete a comprehensive portfolio of their work; \& keep a drawing \& reflection sketchbook. This is a year-long course.
Prerequisite: Successful completion of H Art 5-6 with a B or better or instructor approval based on portfolio review.
Course ID: 110341 / 110342
Credits: 1 per semester

## Computer Graphic Design 1-2 (9-12)

This course is an introduction to computer graphics design. Students will learn the elements \& principles of design, in addition to layout skills \& other applications of computer technology (flyers, poster \& package design, drawing illustration). Students will be given a foundation in the business \& commercial applications of computer graphics. Students will complete drawings on \& off the computer.
Course ID: 110561/110562
Credits: 1 per semester
Computer Graphic Design 3-4 (10-12)
This course is a continuation of student preparation in the field of commercial art \& graphic design. Students explore hardware \& software used by the industry, building a portfolio of their work. Prerequisite for the course is successful completion of Computer Graphic Design 1-2
Prerequisite: completion of Computer Graphic Design 1-2
Course ID: 110571/110572
Credits: 1 per semester

## Computer Graphic Design 5-6 (11-12)

*Not offered in 24-25
This is a third year advanced course in computer graphics with emphasis on individual student projects in commercial art \& design. Prerequisite for the course is successful completion of Computer Graphic Design 3-4.
Prerequisite: completion of Computer Graphic Design 3-4.
Course ID: 110581/110582
Credits: 1 per semester
Intermediate Drawing \& Painting 1-2 (10-12)
*Can be taken as a semester art elective either semester This course offers an expansion of skills \& knowledge of drawing, painting, \& design concepts. An emphasis will be on idea generation; artistic investigations in techniques \& media; initial development of personal voice \& style \& the development of a greater awareness of art beyond school. In addition to art production, students will use a variety of learning strategies including reading, analyzing, \& interpreting to respond, connect, \& develop a deeper understanding of art from a variety of cultures \& time periods. Prerequisites Completion of Art 1-2
Course ID: 110241/110242
Credits: 1 per semester
Pottery 1-2 (9-12)
This course explores hand-built pottery techniques in terms of form, function \& cultural expression. A background in drawing, design \& color is recommended. In addition to art production, students will use a variety of learning strategies including reading, analyzing \& responding to develop a deeper understanding of art. Students will learn about pottery produced by artisans from various cultures \& times, \& use the critical process to evaluate their own work, as well as examples taken from art history. Students will get dirty while completing projects.
Course ID: 110461/110462
Credits: 1 per semester

Pottery 3-4 (10-12)
This course will enable students to further develop hand building \& wheel throwing skills, while they continue to study the development of pottery styles \& techniques through history \& in various cultures. Aesthetic issues related to form \& function, the inherent expressive qualities of clay, \& identifying good craftsmanship will be an ongoing part of the study. In addition to art production, students will use a variety of learning strategies including reading, analyzing \& responding to develop a deeper understanding of ceramic art.
Prerequisite: completion of Pottery 1-2 with a C or better or teacher permission.
Course ID: 110471/110472
Credits: 1 per semester
Pottery 5-6 (11-12)
This course is an advanced, individualized course providing selected students an opportunity to individualize projects, enhancing their style in the medium while further exploring the philosophical and historical aspects of clay art. Focus is on creating a series of clay pieces on a chosen theme, researching ceramic history or artists, keeping a pottery journal/sketchbook, becoming current with contemporary ceramic artists and styles, participating in workshops, and mixing glazes. Requirements for Honors credit include independent research; in-depth art critiques; weekly sketchbook/journal entries; gallery and/or museum visits with reflections; development of and production of clay works based on research and reflection of master ceramic artists; formal presentation of research, influence, artistic process and work.
Prerequisite: successful completion of Pottery 3-4 with a grade of B or better or instructor permission.
Course ID: 110691/110692
Credits: 1 per semester
AP Studio Art (12)
The AP Drawing course framework presents an inquiry-based approach to learning about \& making art \& design. Students are expected to conduct
an in-depth, sustained investigation of materials, processes \& ideas. The framework focuses on concepts \& skills emphasized within college art \& design foundations courses with the same intent: to help students become inquisitive, thoughtful artists \& designers able to articulate information about their work. AP Drawing students develop \& apply skills of inquiry \& investigation, practice, experimentation, revision, communication \& reflection. Students will focus on the use of mark-making, line, surface, light \& shade, \& composition. Students can work with any materials, processes, \& ideas. Drawing (analog or digital), painting, printmaking, \& mixed media work are among the possibilities. The AP Drawing Portfolio exams contain two sections. The Selected Works section requires students to demonstrate skillful synthesis of materials, processes \& ideas. The Sustained Investigation section requires students to conduct a sustained investigation bases on questions, through practice, experimentation \& revision. Both sections of the portfolio require students to articulate information about their work. Prerequisites for this course are successful completion with a B or better in two years of upper level art courses or instructor approval. Students who select NOT to participate in the AP exam are expected to take a cumulative, AP comparable, teacher-graded end of course exam.
Prerequisite: Successful completion of with a B or better in two years of upper level art courses or art teacher recommendation.
Course ID: 110391/110392
Credits: 1 credit per semester
Studio Art 1-2 (12)
*Taken concurrent with AP Studio Art
This course is designed for the serious art student who plans to take Advanced Placement Art and/or art courses beyond high school. Students will work to develop technique, skill \& personal style. Emphasis will be placed on building a body of work to be included in a portfolio. In addition to art production, students will use a variety of learning strategies including reading, analyzing \& responding to develop a deeper understanding of art, aesthetics, art criticism \& art history.
Prerequisite: art faculty permission
Course ID: 110451/110452
Credits: 1 per semester

| INSTRUMENTAL MUSIC <br> MÚSICA INSTRUMENTAL |
| :---: |
| PREP BAND <br> BANDA DE PREPARACION <br> $(9-12)$ |

## Career Tech Education (CIS, BMIT Smart Technology Pathways)

Accounting 1-2 (11-12)
Course covers sole proprietorship accounting principles involved in the preparation \& maintenance of financial records concerned with business management \& operations. It is a comprehensive introduction to basic accounting including recording, summarizing \& reporting, principles of income measurement \& asset valuation, \& accounting systems \& controls. Students are exposed to careers in accounting field \& are given opportunity to perform accounting applications using the computer. An introduction to partnerships \& corporations may be included.
Course ID: 120171 / 120172
Credits: 1 per semester
AP Computer Science Principles 1-2 (10-12)
11th - Software Design \& App. Development Path
Computer Science Principles introduces students to the foundations of computer science with a focus on how computing powers the world. Along with the fundamentals of computing, you will learn to analyze data, create technology that has a practical impact, \& gain a broader understanding how computer science impacts people \& society
Prerequisites: Foundations of Computing 1-2
Course ID: 131311/131312
Credits 1 per semester

## Info Technology Apps 1-2 (9-12)

Students will explore emerging technologies as they apply to their success for high school, college, \& career. The focus will be on the importance of digital citizenship, professional communication practices, advanced document processing, professional presentations, \& intermediate spreadsheet \& database applications used personally \& professionally.
Course ID: 130951/130952
Credits: 1 per semester
Entrepreneurship 1 (10-12)
Course designed for students with a career interest in entrepreneurship. Emphasis placed on the evaluation of the business skills \& commitment necessary to successfully operate an entrepreneurial venture \& review the challenges \& rewards of entrepreneurship. The role of entrepreneurial businesses in the United States \& the impact on the national \& global economy will be explored. May include the development of a business plan, or actual creation of a student-run business.
Recommended successful completion of Principles of Business, Marketing \& Management
Course ID: 120401
Credits: 1

## Freshman Seminar (9)

This introductory course is for all freshman students that will introduce them to the high school experience by discovering school opportunities in career-based pathway \& academy programming, will build a plan for their high \& post-high school experiences, \& will focus on learning strategies for successful transitioning into the high school environment. Students will engage in content in this course exploring the Omaha Public School's Portrait of a Graduate, benchmarks of a College \& Career Continuum, \& Nebraska's College \& Career Readiness Standards.
Course ID: 181301/181302
Credits: 1 per semester

Foundations of Computing 1-2 (9-12)
Designed to be the first computer science course for students who have never programmed before, Foundations of Computing is a starting point for Computer Science. Students will explore the impact of computing in society \& build skills in digital citizenship \& cybersecurity. Beyond learning the fundamentals of programming, students build computational-thinking skills by applying computer science to collaboration tools, modeling \& simulation, \& data analysis.
Course ID: 131421/131422
Credits: 1 per semester
Jobs for Americas Graduates (JAG) (9-12)
Jobs for America's Graduates (JAG) is a graduation enhancement program focusing on personal \& career development \& future readiness. The class includes guest speakers, mentorship, \& guidance. Each JAG member will become part of a student leadership organization \& have several opportunities to further unlock \& enhance their potential. This course should be utilized by high school level students.
Prerequisites: requires application \& program acceptance
Course ID: 188021/188022
Credits: 1 per semester

Marketing 1-2 (11-12)
Students will explore the basic functions of marketing: pricing, promotion, product planning, \& place/distribution: the marketing mix. The curriculum provides the foundational skills \& knowledge in economics, communications skills/interpersonal skills, professional career development, business, management, \& entrepreneurship. Application of academic concepts \& technology are integrated throughout the curriculum. Recommended successful completion of Principles of Business, Marketing \& Management
Course ID: 120471 / 120472
Credits: 1 per semester

## Personal Finance (12)

The goal of personal finance is to help students become financially responsible, conscientious members of society. This course develops student understanding \& skills in money management; budgeting; financial goal attainment; use of credit; insurance; investments; \& consumer rights \& responsibilities. Application of academic concepts, technology, \& career planning are integrated throughout the curriculum.
Course ID: 120981
Credits: 1
Principles of Business, Marketing, \& Management (9-12)
This course is designed as an introductory overview of the Business, Marketing, \& Management Career Field. Units of study include economic systems, forms of business ownership, management, marketing, \& accounting. Career opportunities will also be explored.
Course ID: 120021
Credits: 1

## SMART TECH PATHWAY COURSES

## Foundations of Computing 1-2 (9-12)

10th - Al, VR \& Nano Tech; Cybersecurity, \& App Development Paths
Designed to be the first computer science course for students who have never programmed before, Foundations of Computing is a starting point for Computer Science. Students will explore the impact of computing in society \& build skills in digital citizenship \& cybersecurity. Beyond learning the fundamentals of programming, students build computational-thinking skills by applying computer science to collaboration tools, modeling \& simulation,

## \& data analysis

Course ID: 131421/131422
Credits: 1 per semester

## Intro: Artificial Intelligence (11)

11 th - AI, VR \& Nano Tech Pathway
This introductory course will provide a solid foundation in artificial intelligence (Al) concepts for all fields. Students will be introduced to the pioneers \& origins of Al, as well as a timeline \& advancements in the artificial intelligence realm. Learning focus will include Al applications, ethics, regulations, \& applications for Al in business \& industry.
Prerequisites: Foundations of Computing. Must be registered w/ Intro VR Course ID: 130201
Credits: 1

## Intro: Virtual Reality (11)

11th - AI, VR \& Nano Tech Pathway
This course is designed to introduce students to the field of virtual reality (VR) \& provide students hands-on experience developing applications for modern virtual reality systems. Students learn about the historical development of virtual reality technology, computer graphics \& 3D modeling, human-computer interaction relating to VR, modern VR technologies \& context \& use of VR.
Prerequisites: Foundations of Computing, taken with Intro to AI
Course ID: 130202
Credits: 1

## Technology and Innovations 1-2 (12)

$12^{\text {th }}$ - AI, VR \& Nano Tech Pathway
In this course students will examine the impact of innovation on culture, society, and the environment. Focus will include expanding technological literacy through research and investigation of present and future innovations. Students will use creativity, predictive analysis and technology to address real-world problems and respond to workplace challenges. During the course, students will work independently and in teams to think critically, identify problems, and design and test solutions.
Prerequisites: Intro to AI / Intro to VR
Course ID: 130221 / 130222
Credits: 1 per semester

## AP Computer Science Principles 1-2 (11)

$11^{\text {th }}$ - Software Design \& App. Development Path
Computer Science Principles introduces students to the foundations of computer science with a focus on
how computing powers the world. Along with the fundamentals of computing, you will learn to analyze data, create technology that has a practical impact, \& gain a broader understanding how computer science impacts people \& society
Prerequisites: Foundations of Computing 1-2
Course ID: 131311/131312
Credits 1 per semester

## Software Development 1-2 (12)

$12^{\text {th }}$ - Software Design \& App. Development Path
Software development is intended as an integrative course in computer science \& engineering programs
of study. It is a research, design \& development course in which students work in groups to design, develop \& deploy an original solution to a valid open-ended technical problem by applying a software lifecycle process. The course applies \& concurrently develops secondary level knowledge \& skills in mathematics, science, technology \& other related areas
Prerequisites: AP Computer Science
Course ID: 130361/130362
Credits: 1 per semester

H Cybersecurity 1-2 (11)
$11^{\text {th }}$ - Cybersecurity Path
Cybersecurity introduces the tools \& concepts of cybersecurity \& encourages students to create solutions that allow people to share computing resources while protecting privacy. Topics explored include cryptography, software \& network vulnerabilities, governance, global impacts, \& career fields in information assurance. Students will solve problems by understanding \& closing these vulnerabilities. This course raises students' knowledge of \& commitment to ethical computing behavior Prerequisites: Foundations of Computing.
Course ID: 131411/131412
Credits: 1 per semester

## Cybersecurity 3-4 (12)

$12^{\text {th }}$ - Cybersecurity Path
In this course the students will continue to develop \& build their cybersecurity skills \& knowledge while learning advanced concepts required to recognize \& potentially mitigate attacks against devices, computers, 2024-2025 Updated September 20225 enterprise networks \& mission-critical infrastructure. Students will learn current testing \& vulnerability assessment techniques to measure \& prevent attacks ranging from basic malware to complex web-based exploits \& social engineering tactics that take advantage of people's trust. Students will recognize \& evaluate real-world attacks through the use of advanced hacking techniques \& methods of defense fortification using virtual labs \& cyber ranges. At the same time, students will delve into topics like risk management \& incident response \& recovery. This course is designed to prepare students for the Certified Ethical Hacker (CEH) and/or the Security+ exam \& certification.
Prerequisites: H Cybersecurity 1-2
Course ID: 131721/131722
Credits: 1 per semester

IT Essentials 1-2 (10-12)
$10^{\text {th }}$-Informational Technology Path
This course covers the fundamentals of computer \& mobile device hardware \& software, \& advanced concepts such as security, networking, \& the responsibilities of an IT professional. Students who complete this course will be able to describe the internal components of a computer, assemble a computer system, install operating systems, \& troubleshoot them using software tools \& diagnostics. Students will also be able to connect to the Internet \& share resources in a networked environment. Other topics covered include scripting basics, remote access technologies, IoT devices \& documentation. Virtualization, cloud computing \& security are also discussed.
Course ID: 130101 / 130102
Credits: 1 per semester

## Network Systems \& Support 1-2 (11)

$11^{\text {th }}$-Informational Technology Path
Students will apply a variety of fundamental skills utilized in entry-level computer network systems administration positions. Exposure to various aspects of network hardware \& software maintenance \& monitoring, introduction to configuring \& supporting a local area network (LAN) \& a wide area network (WAN), Internet systems \& segments of network systems. Students develop knowledge base for networking systems \& support. Students will design, implement, upgrade, manage, \& work with existing networks \& network technologies.
Prerequisites: IT Essentials 1-2
Course ID: 130151/130152
Credits: 1 per semester

## Network Management \& Security 1-2 (12)

$12^{\text {th }}$ - Informational Technology Path
In this course students will learn \& experience network administrator duties including installing \& configuring network hardware, software, \& peripherals. Abiding by IEEE standards \& the Open Source Interconnection (OSI) model, students will create advanced networks, assign user rights, \& develop knowledge \& skills of network hierarchy. Students will demonstrate mastery of topologies, remote connectivity, wireless networking, TCP/IP, network security, \& network troubleshooting.
Prerequisites: Network Systems \& Support 1-2
Course ID: 130161/130162
Credits: 1 per semester

## Drama

## Drama 1-2 (9-12

This course provides an introduction to drama \& theater as an art form. Students enrolled in this course will learn \& apply basic principles of acting \& fundamentals of stage terminology \& audience etiquette. Participants will study, experience \& perform pantomime, improvisation, monologues, original scenes, \& creating, writing \& performing original scripts/plays. Students will also study the technical aspects of theater \& an introduction to theater history. Students are required to attend at least one Buena Vista High School play and/ or musical production per semester. Honors credit is available for this course.
*These may be taken as semester courses.
Course ID: 020631/020632
Credits: 1 per semester
Advanced Drama (10-12)
Advanced Drama is a continued in-depth study \& application of acting principles, terminology, \& theater history. Students will also learn \& apply the fundamentals of directing, stage, lighting, \& costume design. Students are required to attend \& critique all school play \& musical productions per semester.
Prerequisite: C or above in Drama 1-2 or teacher permission.
Course ID: 020651/: 020652
Credits: 1 per semester
Honors Advanced Drama 5-6 (11-12)
This course is a continued in-depth study \& application of acting principles \& techniques, drama terminology, \& special topics in drama/theater: the actor, playwright, director, dramatic structure, dramatic genre \& style. Students will perform monologues, scripted scenes \& various other performance pieces that will develop acting skills \& methods. In addition, students will learn \& apply the fundamentals of directing, playwriting \& theatre history in their acting work. Students are required to attend \& critique all school play \& musical productions per semester. Additional requirements, responsibilities, and/or projects are a part of this course.

Prerequisites: C or above in Honors Adv Drama 3-4.
Course ID: 021831 / 021832
Credits: 1 per semester

## Stagecraft 1-2 (10-12)

This course focuses on providing students with an understanding of technical theater, including theater safety, parts of a theater, theatrical rigging systems, the safe use of tools, basic set construction, introduction to set design, introduction to theatrical lighting \& sound, stage management, \& the use of other theatrical equipment. In addition, students will be introduced to theatrical costumes, properties, \& theatrical makeup \& the role each plays within a production. Students are required to attend \& critique all school play \& musical productions. Honors credit is available for this course. This course may be repeated.
Prerequisite: C or above in Drama 1-2 or teacher permission. Strong interest in the "behind the scenes" working of a theatrical production is a must. Some experience in building/construction is good, but not necessary. Course ID: 020681/020682
Credits: 1 per semester

## Honors Advanced Stagecraft

Honors Advanced Stagecraft focuses on providing students with an in-depth understanding of technical theatre, including safety, parts of a theatre, theatrical rigging systems, the safe use of tools, basic set construction, introduction to set design, introduction to theatrical lighting \& sound, stage management \& the use of other theatrical equipment. In addition, students will be introduced to theatrical costumes, properties, \& theatrical makeup \& the role each plays within a production. Students are required to attend \& critique all school play \& musical productions. Additional requirements, responsibilities, and/or projects are a part of this course.
Recommended: C or above in Stagecraft 1-2 or teacher recommendation. Course ID: 021691/021692
Credits: 1 per semester

## English Language Learners

## ESL courses as placed by assessments <br> Refer to the ELD Pathways for more details

## Academic Language Study EL

This year-long course is designed to boost academic language development of Long Term English Learners (LTELs). This course will focus on teaching high-leverage academic language, including vocabulary, syntax, \& complex grammatical structures. Through the coursework, LTELs will engage in academic conversations \& peer collaboration while reading authentic, increasingly complex information \& literacy texts that are relevant to students' lives. Curriculum will also aim to develop LTELs' academic writing skills to successfully write summaries, opinions, informative texts, \& research papers. Course will provide LTELs with opportunities to make connections between coursework \& the demands of college \& workplace. Course ID: 157101/157102
Credits: 1 Per Semester

## ESL 1-2

This course is intended for beginning proficiency level English learners (typically a first-year English learners with formal educational experiences). It is worth 2 credits due to double seat time. It focuses on increasing ELs' academic English skills in the areas of speaking, listening, reading, \& writing to an early-intermediate level as measured by the ELP Achievement Level Descriptors. The language \& literacy integrated curriculum provides students with a balanced approach to learning English through applying comprehension skills to study authentic literature, informational texts, foundational literacy skills, academic vocabulary development, \& academic writing with contextualized grammar. Special attention will be given to develop ELs' oral language through integration of academic conversations. The curriculum for ESL classes is aligned to the EL Proficiency standards \& is in support of academic language development required for the core content-area standards' mastery.
Course ID: 155191/155192
Credits: 2 Per Semester

## ESL 3-4

This course is intended for intermediate proficiency level English learners (typically a second-year English learners with formal educational experiences). It is worth 2 credits due to double seat time. The focus of the course will be to increase ELs' academic English skills in the areas of speaking, listening, reading, \& writing to an intermediate level as measured by the ELP Achievement Level Descriptors. The language \& literacy integrated curriculum will focus on strengthening comprehension \& interaction with complex text through utilization of high-yield comprehension strategies, academic conversations, academic vocabulary \& writing \& grammar skills required to produce academic writing. The curriculum for ESL classes is aligned to the EL Proficiency standards \& is in support of academic language development required for the core contentarea standards' mastery.
Course ID: 155351/155352
Credits: 2 Per Semester

## English 1-2 ELL

This course offers the English 1-2 curriculum with enhanced vocabulary focus \& cultural orientation for ELL students.
Course ID: 10371/10372
Credits: 1 Per Semester

## ESL 5-6

This co-requisite course is intended for intermediate proficiency level English learners, who are also enrolled in English 1-2 ELL course. The focus of the course will be to increase ELs' academic English skills in the areas of speaking, listening, reading, \& writing to an advanced level as measured by the ELP Achievement Level Descriptors. The language \& literacy integrated curriculum will focus on strengthening comprehension \& interaction with complex text through utilization of high-yield comprehension strategies, academic conversations, academic vocabulary \& writing \& grammar skills required to produce academic writing. The curriculum for this course is aligned to the EL Proficiency standards \& is in support of academic language development required for English 1-2 course.
Course ID: 155151/155152
Credits: 1 Per Semester

## ESL Math Prep 1-2

This co-requisite course is intended for beginning proficiency level English learners, who are also enrolled in an appropriate math course. The focus
of the course will be to build math literacy (language \& vocabulary for math.). Course curriculum includes math discourse development. (e.g., academic vocab, how to unpack math word problems, academic conversations about math) \& foundational skills review. Curriculum for this course is aligned to the EL Proficiency standards \& is in support of academic language development required for mathematics.
Course ID: 155301/155302
Credits: 1 per semester

## ESL Reading 3-4

This course is designed for intermediate proficiency level ELs. The focus of the course is to improve ELs academic language development in the areas of speaking, listening, reading \& writing to an intermediate level as measured by the ELP Achievement Level Descriptors. Emphasis is on strengthening comprehension skills through experience with texts that systematically increase in scope \& complexity. Students will have frequent opportunities for academic conversations \& writing about relevant content that supports growth toward mastery of grade level content.
Course ID: $155231 / 155232$
Credits: 1 per semester

## ESL Social Studies Foundations 1-2

This ESL course is intended for beginning proficiency level English learners (typically a first-year English learners with formal educational experiences) \& supports literacy \& EL acquisition. This course explores the life of our country during the time period between Independence to 1900. Instruction is organized around the themes of geography, history, economics, \& civics. Students investigate the key people, events, \& ideas of the United States through primary \& secondary sources, multiple perspectives, \& the inquiry process. The curriculum for ESL classes is aligned to the EL Proficiency standards \& is in support of academic language development required for mastery of HS US History course standards \& curriculum.
Course ID: 159411/159412
Credits: 1 per semester

## Physical Science 1-2 ELL

Physical Science ELL is restricted for ESL students who are concurrently enrolled in ESL 3-4 or ESL 5-6. A special focus on language development is provided, but content \& standards are the Physical Science 1-2 standards. Physical Science engages students in the three dimensions (science practices, disciplinary core ideas, \& crosscutting concepts) of learning as identified by the Nebraska College \& Career Ready Standards for Science. Topics include forces \& interactions, waves \& electromagnet radiation, structure \& properties of matter, energy, chemical reactions, space systems, weather \& climate, \& Earth's systems. This course provides a foundation for other science courses \& meets the district requirement for Physical Science.
Course ID: 060901/060902
Credits: 1 per semester

## Science Foundations 3-4 (*science credit)

Science Foundations 3-4 is an inquiry-based course designed to expose students to natural, environmental, \& life sciences. Topics include weather \& water cycles, plant studies, environmental changes, \& human body systems. This course provides a foundation for other science courses. This science elective course is intended for beginning proficiency level English learners (typically a first-year EL with formal educational experiences).
Course ID: 063141/063142
Credits: 1 per semester

## US History ELL

This course is restricted for ESL students who are concurrently enrolled in ESL 3-4 or ESL 5-6. A special focus on language development is provided, but content and standards are the US History standards. This course continues the study of US history from 1900 to present. Students address the social, economic, and political dev. of the nation and relate it to both past and present. Instruction is organized around the themes of geography, history, economics, and civics. Students investigate the key people, events, and ideas of the United States through primary and secondary sources, multiple perspectives, and the inquiry process.
Course ID: 31331 /31332
Credits: 1 per semester

## English

## Academic Literacy (9)

This course helps students develop skills \& knowledge to improve their engagement, fluency, \& comprehension of content-area materials \& texts. Students will learn to understand \& regulate their own reading processes while developing strategies for overcoming reading obstacles.
Prerequisite: placement is based on standardized test scores \& teacher recommendation.
Course ID: 011011/011012
Credits: 1 per semester
English 1-2 (9)
This course focuses on the language arts skills of reading, writing, speaking \& listening. Students will use a variety of unique conceptual lenses (choices \& consequences, heroes, life experiences \& relationships, identity) to gain command of essential skills in written \& oral communication \& the reading of narrative \& informational text. Students will produce a variety of writing samples in the following modes: descriptive, narrative, analytical, expository, persuasive, argumentative, \& technical.
Course ID: 010341 / 010342
Credits: 1 per semester

## Honors English 1-2 (9)

This course provides a more rigorous \& intensive study of the language arts skills of reading, writing, speaking \& listening as described in English 1-2. Students will read a variety of narrative \& informational texts \& produce writing pieces in the following modes: descriptive, narrative, analytical, expository, persuasive, argumentative \& technical. Additional course work is required above \& beyond the regular English 1-2 course
Guidance includes any one of the following: Grade of "A" in EL Arts-8 1 \& 2, Grade of "B" or higher in Honors EL Arts-8 1 \& 2, MAP Reading score at or above a score determined by District EL Arts Supervisor.
Course ID: 010351 / 010352
Credits: 1 per semester

## English 3-4 (10)

This course focuses on the language arts skills of reading, writing, speaking \& listening. Students will use a variety of unique conceptual lenses (relationships, culture, responsibility, integrity \& honor) to gain command of essential skills in written \& oral communication \& the reading of narrative \& informational text. Students will produce a variety of writing samples in the following modes: descriptive, narrative, analytical, expository, persuasive, argumentative, \& technical.
Course ID: 010411/010412
Credits: 1 per semester

## Honors English 3-4 (10)

*Course correlated with Cambridge course
This course provides a more rigorous \& intensive study of the language arts skills of reading, writing, speaking \& listening as described in English 3-4. Students will read a variety of narrative \& informational texts \& produce writing pieces in the following modes: descriptive, narrative, analytical, expository, persuasive, argumentative, \& technical. Additional course work is required above \& beyond the regular English 1-2 course.
Prerequisites: Guidance includes any one of the following: Grade of " $A$ " in English 1 \& 2, Grade of "B" or higher in Honors EL 1 \& 2, MAP Reading score at or above a score determined by District EL Arts Supervisor, or teacher recommendation
Course ID: 10421/10422
Credits: 1 per semester

## English 5-6 (11)

English 5-6 focuses on the EL Arts skills of reading, writing, speaking \& listening through a study of American literature. Students will use a variety of conceptual lenses to gain command of essential skills in written \& oral communication \& the reading of narrative \& informational text. Students will produce a variety of writing samples in the following modes: descriptive, narrative, analytical, expository, persuasive, argumentative, \& technical.
Course ID: 010471/010472
Credits: 1 per semester

## AP English Language \& Composition (11)

*Possible Dual Enrollment
Advanced Placement Language \& Composition is an Advanced Placement course designed to engage students in the careful reading \& critical analysis of primarily non-fiction works, but it also includes American literature \& poetry. Through close reading \& use of other AP learning
strategies, students deepen their understanding of the ways writers use language to provide both meaning \& pleasure for their readers. This course follows the College Board curriculum \& involves extensive reading \& writing. Advanced educational credit may be available for students who successfully pass the AP Exam. Dual enrollment options may be available. Students who select NOT to participate in the AP exam are expected to take a cumulative, AP comparable, teacher-graded end of course exam.
Prerequisites: Successful completion of ELA 3-4 or H 3-4; teacher recommendation
Course ID: 011911/011912
Credits: 1 per semester

## English 7-8 (12)

English 7-8 focuses on the EL Arts skills of reading, writing, speaking \& listening through a study of British \& global literature. Students will use a variety of conceptual lenses to gain command of essential skills in written \& oral communication \& the reading of narrative \& informational text. Students will produce a variety of writing samples in the following modes: descriptive, narrative, analytical, expository, persuasive, argumentative, \& technical.
Course ID: 010531 / 010532
Credits: 1 per semester

## AP English Literature \& Composition (12)

*Possible Dual Enrollment
Advanced Placement English Literature \& Composition is an Advanced Placement course that engages students in the critical analysis of selected texts from ancient Greece to the contemporary world. Students continue to practice close reading techniques, build their vocabularies \& comfort with the language of literary analysis, \& approach texts independently with increasing sophistication \& critical thinking. This course follows the College Board curriculum \& involves extensive reading \& writing. Advanced educational credit may be available for students who successfully pass the AP Exam. Dual enrollment options may be available. Students who select NOT to participate in the AP exam are expected to take a cumulative, AP comparable, teacher-graded end of course exam.
Prerequisites: Successful completion of ELA 5-6 or AP Lang; teacher recommendation
Course ID: 011901 / 011902
Credits: 1 per semester

## Journalism 1 (9-12)

*Often taken with Photojournalism
This course introduces students to the entire field of journalism. Students will learn law \& ethics; various modes of journalistic writing, reporting, \& interviewing; \& newspaper/ yearbook layout \& design. They will also learn basics of photography, digital citizenship, \& online media. Students are expected to work individually \& collaboratively. It prepares students for any of the honors publication classes such as yearbook, newspaper, \& digital journalism.
Course ID: 020411
Credits: 1

## Literacy Skills (9)

Students in this course will improve reading proficiency with explicit, direct instruction in fluency, vocabulary, \& comprehension. Strategies for phonemic awareness \& phonics will be taught as needed. Students will read leveled, high interest literature for both academic \& recreational purposes. Prerequisite: Placement is based on standardized test scores \& teacher recommendation
Course ID: 011181/01182
Credits: 1 per semester

## Honors Newspaper 1-2 (10-12)

Students enrolled in this course will be responsible for the print and/or online production of the school newspaper. Students will work individually \& corroboratively on their assignments. Quality writing, editing, advertising, photography, \& layout design skills are emphasized.
Prerequisites: Successful completion of a "C" or higher in either Journalism or Photojournalism or journalism advisor recommendation.
Course ID: 021171/021172
Credits: 1 per semester
Honors Newspaper 3-4 (11-12)
Students enrolled in this course will be responsible for the print and/or online production of the school newspaper. Students will work individually
\& collaboratively on their assignments. Quality writing, editing, advertising, photography, \& layout design skills are emphasized. Students will assume additional responsibilities \& assignments. This course is for second year newspaper students.
Prerequisites: Successful completion of a "C" or higher in Honors Newspaper 1-2 AND requires Journalism Adviser permission.
Course ID: 021181/021182
Credits: 1 per semester

## Honors Newspaper 5-6 (12)

Students enrolled in this course will be responsible for the print and/or online production of the school newspaper. Students will work individually \& collaboratively on their assignments. Quality writing, editing, advertising, photography, \& layout design skills are emphasized. Students will assume additional responsibilities \& assignments. This course is for third year newspaper students. Prerequisites: Successful completion of a "C" or higher in Honors Newspaper 3-4 \& requires Journalism Adviser permission. Prerequisites: Successful completion of a "C" or higher in Honors Newspaper 3-4 AND requires Journalism Adviser permission.
Course ID: 021191 / 021192
Credits: 1 per semester

## Photojournalism (9-12)

*Often taken with Journalism 1
In addition to learning to create written pieces through the development of photographs, this course includes DSLR camera operation, lighting, composition, photo editing techniques for print or computer-mediated publication applications. Emphasis is placed on using the camera as a reporting tool in conjunction with design to publish their work. Legal \& ethical issues involving photojournalism will also be addressed.
Course ID: 020841
Credits: 1
Speech 1-2 (11-12)
Speech focuses on acquainting students with the communication process \& on developing \& improving students' public speaking skills \& their oral interpretation skills. Instruction focuses on the teaching of the fundamentals of speech \& requires students to perform various speaking
activities. Speech 2 focuses on acquainting students with the communication process \& on developing \& improving students' public speaking skills \& their oral interpretation skills. Instruction focuses on the teaching of the fundamentals of speech \& requires students to perform various speaking activities.
Course ID: 020511/020512
Credits: 1 Per semester
Honors Yearbook 1-2 (10-12)
Students enrolled in this course are responsible for the production of the school yearbook. Students work individually \& collaboratively on their assignments. Quality writing, editing, advertising, photography, \& layout design skills are required.
Prerequisites: Successful completion of a "C" or higher in either Journalism or Photojournalism or journalism advisor recommendation.
Course ID: 021231/021232
Credits: 1 per semester

## Honors Yearbook 3-4 (11-12)

Students enrolled in this course are responsible for the production of the school yearbook. Students work individually \& collaboratively on their assignments. Quality writing, editing, advertising, photography, \& layout design skills are required. Students will assume additional responsibilities \& assignments. This course is for second year yearbook students.
Prerequisites: Successful completion of a "C" or higher in Honors Yearbook 1-2 and journalism advisor recommendation.
Course ID: 021331/021332
Credits: 1 per semester

## Honors Yearbook 5-6 (12)

Students enrolled in this course are responsible for the production of the school yearbook. Students work individually \& collaboratively on their assignments. Quality writing, editing, advertising, photography, \& layout design skills are required. Students will assume additional responsibilities \& assignments. This course is for second year yearbook students.
Prerequisites: Successful completion of a "C" or higher in Honors Yearbook 3-4 and journalism advisor recommendation.
Course ID: 021431 / 021432
Credits: 1 per semester

## Health \& Education Pathway

Lifespan Development (10-12)
10 - Teaching as a Profession Path
This course explores the physical, emotional, social, \& intellectual development of individuals across the lifespan. External impacts on development, including family structure \& practices, social \& technological forces, \& resources available to individuals \& their outcomes will be explored.
Prerequisites: Classroom, laboratory, \& educational leadership activities are supplemented through Educators Rising. Students must also take 141171 Principles of Education \& Training.
Course ID: 141161
Credits: 1 credit

## Principles of Education \& Training (10-12)

10 - Teaching as a Profession Path
*Dual Enrolled
This course is designed to introduce students to career opportunities \& related skills in the Education \& Training career field, including teaching \& professional educational training. Students will explore topics related to the foundation \& history of education, the philosophy of education, roles of educators, instructional \& assessment methods, diversity of cultures \& communities related to educational settings, learner development, \& professional development. Classroom, laboratory, \& educational leadership activities are supplemented through Nebraska Educators Rising, a career \& technical student organization. This course can be dual enrolled through UNO, based on teacher HLC guideline credentials, for TED 1010 for 3 credits.
Students must also take 141161 Lifespan Development.
Course ID: 141171
Credits: 1 credit

## Best Practices in Education 1-2 (11-12)

11 - Teaching as a Profession Path
This course is a continuation of the Teaching as a Profession pathway \& is the third course in a four-course sequence. Students will further engage in topics related to instructional \& assessment methods, including differentiation of instruction. Students will also develop active listening skills necessary for educators \& demonstrate positive feedback techniques. Students will gain skills related to planning for instruction, which will be utilized in the field experience (the fourth course in this sequence). Classroom, laboratory, \& educational leadership activities are supplemented through Nebraska Educators Rising, a career \& technical student organization. Students will need to complete \& pass a background check in order to go into classrooms for the 25 hours of field observation \& practicum experiences.
Prerequisites: Lifespan Development \& Principles of Education \& Training. Course ID: 141181 / 141182
Credits: 1 per semester

## Field Experiences in Education Training 1-2 (12)

12 - Teaching as a Profession Path
This course is a continuation of the Best Practices in Education \& Training course \& is the fourth course in a four-course sequence. Through this capstone experience, students will apply previously developed knowledge \& skills into a structured workplace experience. Students will need to complete \& pass a background check in order to go into classrooms for the 90 hours of field observation \& practicum experiences. This volunteer experience may take place within a school environment for those seeking teaching careers, or within the business \& industry community for those seeking careers in professional educational training. Goals are set cooperatively by students, their instructor, \& respective supervising professionals. Opportunities may include experience teaching in a controlled setting by designing learning experiences \& facilitating presentations. Students will focus on improving their instructional strategies through coaching from their teacher \& supervising professionals. Classroom, laboratory, \& educational leadership activities are supplemented through Nebraska Educators Rising, a career \& technical student organization.
Prerequisites: Best Practices in Education. Lifespan Development \& Principles of Education \& Training.
Course ID: 141191 / 141192
Credits: 1 credit per semester

Foundations of Health Care (10-12)
10 - Behavior Health \& Human Performance Paths
This course is designed to introduce students to career opportunities \& related skills in the Health Science career field. Students will explore topics related to; health informatics, biotechnology research, therapeutic certificated services, behavioral health, life span performance \& allied/public health. This course also focuses on cost \& educational requirements of health science professions, ethical \& legal responsibilities, the history \& economics of health care.
Prerequisite: Students must also take INTRO TO MEDICAL TERMINOLOGY. Course ID: 074061
Credits: 1
Intro to Medical Terminology (10-12)
10 - Behavior Health \& Human Performance Paths
This course is designed to help students learn medical language by analyzing their components. The primary focus is on developing both oral \& written skills in the language used to communicate within health care professions.
Prerequisite: Students must also take 074061 FOUND. OF HEALTH CARE Course ID: 070611
Credits: 1

## Psychology (11)

11 - Behavioral Health Path

* see social studies listing for Psychology or AP Psychology

## Patient Care (11)

11 - Behavioral Health Path
In this course students learn the legal \& ethical principles needed to function within the scope of practice in healthcare. Emphasis is placed on the synthesis of information gathered through health history, observation, \& the detection of deviations \& variations from normal physical characteristics. Students will apply skills to assist individuals in meeting basic human needs. Students learn interventions to implement to follow an assistant plan of care. Students will understand the importance of collection of patient's vital signs including temperature, pulse rate, respiration rate, \& blood pressure. Additionally, students will learn observation techniques regarding patients' physical, mental, \& emotional conditions \& procedures to document change.
Prerequisites: Foundations of Healthcare
Course ID: 074581
Credits: 1

## Behavioral Health 1-2 (12)

12- Behavioral Health Path
This course establishes a foundation that is necessary to understand Behavioral Health \& investigate careers in the field of Health Sciences. Course emphasis is placed on teaching students to successfully investigate Behavioral Health; education preparation, workforce structure \& acquire awareness \& knowledge of this career area.
Prerequisites: Successful completion of Patient Care \& Psychology.
Course ID: 074321/074322
Credits: 1 per semester

Foundations of Health Care (10-12)
10 - Behavior Health \& Human Performance Paths
This course is designed to introduce students to career opportunities \& related skills in the Health Science career field. Students will explore topics related to; health informatics, biotechnology research, therapeutic certificated services, behavioral health, life span performance \& allied/public health. This course also focuses on cost \& educational requirements of health science professions, ethical \& legal responsibilities, the history \& economics of health care.
Prerequisite: Students must also take INTRO TO MEDICAL TERMINOLOGY. Course ID: 074061
Credits: 1

## Sports Medicine 1-2 (11)

11- Human Performance Path
This course is designed for students who may be interested in a career in Sports Medicine. This course should feature the prevention, recognition, treatment, \& rehabilitation of activities caused by physical activity or athletics. Topics may include taping \& bandaging, proper use of protective padding, treatment modalities, anatomy \& physiology, medical terminology. Students may learn to measure cardiorespiratory endurance, flexibility, body composition, \& blood pressure.
Prerequisites: Foundations of Healthcare. Medical Terminology.
Course ID: 074391/074392
Credits: 1 per semester

Intro to Exercise Science 1-2 (12)
12- Human Performance Path
This course is appropriate for students wishing to pursue a career in personal training or for those who desire an introduction in the field of exercise science. Students will gain knowledge of body systems, nutrition, life-long fitness \& the impact of disease \& injury on quality of life. The course will enable students to perform fitness assessments, according to current national guidelines \& to use data to develop exercise \& training routines, fitness plans \& nutritional programs to fit the needs of clients
Prerequisites: Sports Medicine 1-2 / Honors
Course ID: 074241/074242
Credits 1 per semester

## Mathematics

Pre-Algebra 1-2 (9-12)
Designed to bridge the similarities of arithmetic \& algebra. This course will contain spiraling reinforcement of basic algebraic concepts \& topics in order to prepare students for successful placement in Algebra 1-2. This course will cover the content standards for pre-algebra, including operations on real numbers, conversions among fractions, decimals, \& percentages, solving linear equations \& inequalities, graphing linear equations, working with polynomials, \& using measures of central tendency to interpret data.
Course ID: 040161/040162
Credits: 1 per semester
Algebra 1-2 (9-12)
First-year algebra survey; covers traditional algebra topics including a study of the four basic operations dealing with signed numbers \& polynomials, solution of first- \& second-degree equations, verbal problems, systems of linear equations, graphing \& writing linear equations \& inequalities, \& simplifying exponential expressions.
Course ID: 040271/040272
Credits: 1 per semester
Algebra 3-4 (9-12)
This course covers the topics of a traditional second-year algebra course. Content includes solving polynomial equations as well as linear, absolute value, \& quadratic equations \& inequalities, \& working with exponents \& logarithms, complex numbers, systems of equations \& inequalities, \& simple probability. Appropriate tech will be used to assist in instruction \& learning.
Prerequisite: Students enrolling in this course will have successfully completed both semesters of Algebra 1-2 with passing grades.
Course ID: 040291/040292
Credits: 1 per semester

## Honors Algebra 3-4 (9-12)

The Algebra 3-4 topics \& concepts will be covered in more depth, \& additional content is present as well. This course covers the topics of a traditional second-year algebra course; includes solving polynomial equations as well as linear, absolute value, \& quadratic equations \& inequalities, \& working with exponents \& logarithms, complex numbers, systems of equations \& inequalities, matrix algebra \& matrix solutions to systems of equations, series \& sequences, \& compound probability.
Prerequisite: Any one of the following*: 1.) Grade of "A" in Geometry 1 \& 2. 2.) Grade of " B " or higher in Honors Geometry $1 \& 2$. 3.) Teacher recommendation.
Course ID: 040301/040302
Credits: 1 per semester
Data \& Statistics 1-2 (10-12)
This course is designed to equip students with the mathematical, statistical, \& computational skills necessary to explore life situations. Students will engage with data \& statistics in order to be able to determine correlations, make sound predictions, \& develop conclusions.
Prerequisites: Geometry 1-2
Course ID: 049601/049602
Credits: 1 per semester

## AP Statistics 1-2 (10-12)

This is a course in statistics that covers the topics in the syllabus published by the College Board. College credit \& placement depend on the individual college. This statistics class will introduce students to the major concepts \& tools for collecting, analyzing, \& drawing conclusions from data. Students are exposed to four broad conceptual themes: Exploring Data, Planning a Study, Anticipating Patterns, \& Statistical Inference. This course is equivalent to a one-semester, introductory, non-calculus based college course in statistics. Students who select NOT to participate in the AP exam are expected to take a cumulative, AP comparable, teacher-graded end of course exam.
Prerequisites: Guidance: Grade of "A" in Algebra 3-4, Grade of " B " or higher in Honors Algebra 3-4, teacher recommendation.
Course ID: 040841/040842
Credits: 1 per semester

Geometry 1-2 (9-12)
This course is a complete study of geometry. Topics include congruence \& similarity of figures, parallelism \& perpendicularity, right triangle relationships, formal \& informal proof, coordinate geometry, properties of polygons \& circles, \& perimeter, area, \& volume of two- \& three-dimensional figures.
Prerequisite: Students enrolling in Geometry 1-2 should have passing grades in both semesters of Algebra 1-2.
Course ID: 040351/040352
Credits: 1 per semester
Honors Geometry 1-2 (9-10)
This course is the honors section of Geometry 1-2. Topics include congruence \& similarity of figures, parallelism \& perpendicularity, right triangle relationships, formal \& informal proof, coordinate geometry, properties of polygons \& circles, \& perimeter, area, \& volume of two- \& three-dimensional figures. As an honors class, each topic will be covered in greater depth \& with enrichment.
Prerequisite: Should have proficient or advanced grades in both semesters of Honors Algebra 1-2, or advanced grades both semesters of Algebra 1-2 \& teacher recommendation.
Course ID: 040361/040362
Credits: 1 per semester

## AP Precalculus 1-2 (10-12)

AP Precalculus provides students with an understanding of the concepts of college algebra, trigonometry, \& additional topics that prepare students for further college-level mathematics courses. This course explores a variety of function types \& their applications- polynomial, rational, exponential, logarithmic, trigonometric, polar parametric, vector-valued, implicitly defined, \& linear transformation functions using matrices.
Guidance Grade of "A" in Algebra 3-4, or Grade of "B" or higher in Honors Algebra 3-4 or teacher recommendation
Course ID: 040801/040802
Credits: 1 per semester
AP Calculus AB 1-2 (11-12)
This course follows the College Board's Advanced Placement syllabus for Calculus AB, which stresses the concept of limit \& introduces the student to differential \& integral calculus, including both theorems \& techniques. Students who select NOT to participate in the AP exam are expected to take a cumulative, AP comparable, teacher-graded end of course exam.
Prerequisites: Students enrolling in this course should have proficient or advanced grades in both semesters of Honors Pre-calculus/Trigonometry 1-2, or teacher recommendation
Course ID: 040451/040452
Credits: 1 per semester

## MCC Business 1220 \& MCC Technical 1240 (11-12) <br> *Dual Enrolled Courses

This course is directed toward the development \& application of the mathematics skills needed to solve problems related to business occupations. Topics include percentages, checking accounts \& services, payroll, payroll taxes, cash \& trade discounts, property \& sales taxes, simple \& compound interest, installment purchases, loan payment plans, \& annuities. Instruction \& assessments are delivered electronically with the support of a classroom teacher. This course has a dual enrollment component that satisfies the math requirement for many MCC associate degree programs. This is a year-long course.
Prerequisites: D or higher in Geometry 1-2
Business 1220 Course ID: 049501/049502
Technical 1240 Course ID: 049511/049512
Credits: 1 per semester

## Military Science / JROTC

JROTC 1-2 (LET 1) (9-12)
Intro to Leadership Development: Cadets receive instruction in citizenship, communication, leadership, leadership lab (inspections/drill), physical training, first aid, \& American history.
Course ID: 070811/70812
Credits: 1 credit per semester
JROTC 3-4 (LET 2) (10-12)
Intermediate Leadership Development: Cadets receive instruction in techniques of communication, leadership, leadership lab (inspections/drill), physical training, first aid, map reading, American military history, American citizenship, career opportunities, roles of the U.S. Army, \& technology awareness.
Prerequisites: JROTC 1-2
Course ID: 070821/070822
Credits: 1 credit per semester
JROTC 5-6 (LET 3) (11-12)
As a third-year Cadet, you'll continue to build on LET I \& II knowledge \& skills \& find yourself being introduced to new content that will help you develop your supervisory skills \& abilities. The knowledge, skills, \& abilities you will acquire this year are: Leadership, personal growth \& behaviors, time management, team building, decision making, health \& fitness, service learning \& citizenship \& government.
Prerequisites: JROTC 3-4
Course ID: 070831/ 070832
Credits: 1 per semester
JROTC 7-8 (LET 4) (12)
The JROTC program is designed to help develop strong leaders \& model citizens. As a fourth-year Cadet, you'll continue to build on the LET I-III knowledge \& skills \& find yourself being introduced to new content that will help you continue to lead others in your battalion. The knowledge, skills, \& abilities you will acquire your senior year: Leadership learning experiences provide you with a unique opportunity to look at the role of leadership in continuous improvement. You'll take a look at the big picture of the JROTC program \& how its outcomes relate to leadership. Additionally, you'll explore strategies for teaching \& mentoring others. Personal Growth \& Behaviors continues to help you think \& plan for your future with topics such as personal independence, the importance of personal accountability, \& professional development. Team Building continues to build on drill \& ceremony protocol. You will look at the tactics for motivating others \& how they translate into other areas of leadership. Additionally, you'll explore the elements of a communication model \& how to overcome barriers of communication. In Service Learning you will manage a service-learning project within a unit or the entire battalion. You'll be introduced to project management processes \& management tools. Citizenship \& Government exposes you to the challenges that face fundamental principles of society today. You will discuss topics to encourage you, as a citizen, to think about the future of citizen rights. Leadership laboratories for the practical application of learning are a key part of the course.
Prerequisites: JROTC 5-6
Course ID: 070841 / 070842
Credits: 1 per semester

## Beginning Marksmanship (10-12)

Detailed instruction, guidance, \& supervision in safety \& the art of precision firing with .22 caliber target rifles, \& air pellet pistols \& rifles. Participants must be highly motivated, dedicated, self-disciplined \& agile. Rifle teams participate in postal \& shoulder-to-shoulder rifle matches in \& outside of Omaha. Students have the opportunity to try out for the Rifle Team \& Pistol Teams \& earn a varsity letter.
Prerequisites: Concurrent enrollment with JROTC LET course
Course ID: 070781/070782
Credits: 1 credit per semester
Intermediate Marksmanship (10-12)
This is a continuation of the Beginning Marksmanship course. Detailed instruction in the art of precision rifle marksmanship \& safety under the supervision of instructors certified in the Civilian Marksmanship Program \& Safety Certified by U.S. Army Cadet Command. This is instruction in Olympic style marksmanship techniques \& competition. Small caliber Air Rifles are used in this instruction. Students must be mature, highly motivated, dedicated, \& self-disciplined. Students in this course will be expected to participate as members of the Varsity or Junior Varsity Marksmanship Teams.
Prerequisites: Beginning Marksmanship, Concurrent enrollment with JROTC LET course, instructor permission, normal distance vision with glasses Course ID: 071051/071052
Credits: 1 credit per semester

## Advanced Marksmanship (11-12)

Further individualized detailed instruction in precision rifle marksmanship techniques. The focus is on developing a precision expert marksman. This is instruction in Olympic style marksmanship techniques \& competition. Small caliber Air Rifles are used in this instruction. Students must be mature, highly motivated, dedicated, \& self-disciplined. Students in this course will be expected to participate as members of the Varsity or Junior Varsity Marksmanship Teams.
Prerequisite: Intermediate Marksmanship
Course ID: 070791 / 070792
Credits: 1 credit per semester
Color Guard (9-12)
This is an Intermediate Class in U.S. Army Regulation Drill. Students taking this course will receive instruction in the history \& purpose of Regulation Drill, \& its application in the organization \& conduct of Color Guard Drill, Regulation Unarmed, \& Armed Drill, \& Drill with Sabers. Emphasis will be on learning the finer details of drill to prepare for ceremonies, exhibition \& competition, \& to prepare cadets to become drill team commanders. Students taking this course will be expected to participate as members of JROTC Color Guard \& Drill Teams which will require before \& after school practices \& attendance at scheduled drill team competition events on weekends.
Prerequisite: Must be enrolled in a JROTC LET Course
Course ID: 070631 /070632
Credits: 1 credit per semester

| MILITARY ELECTIVES |
| :---: |
| ELECTIVAS MILITARES |

| COLOR GUARD \& DRILL TEAM |
| :---: |
| GUARDIA DE COLOR Y EQUIPO DE TALADRO |
| Grade 9-12 |
| *Requires after school practices as well as |
| performances for the Buena Vista Drill Team |

The U.S. Army Junior Reserve Officers' Training Corps (JROTC) is one of the largest character development and citizenship programs for youth in the world. The National Defense Act of 1916 established organized JROTC programs at public and private educational institutions. In 1964, Congress expanded the program to all military services and changed from active duty to shared support from the services and schools. As congressionally mandated by Title 10 United States Code, Section 2031, each military service must have a JROTC program to "instill in students in United States secondary educationa institutions the values of citizenship service to the United States, and personal responsibility and a sense o accomplishment." JROTC's mission, "To Motivate Young People to be Better Citizens", is the guide post for the program's success.

The U.S. Army's JROTC program currently operates in more than 1,700 public and private high schools, military institutions, and correctional centers throughout the United States and overseas. The JROTC faculty is led by nearly 4,000 instructors who are retired from active duty, reserve duty, or National Guard Army service. Instructors are trained and qualified in accordance with the National Defense Authorization Act 2007 to teach and mento approximately 314,000 JROTC Cadets annually.

## Music

## Music Technology 1 (9-12)

This course is designed for students interested in music \& its related computer applications. No previous experience in computers or music is necessary. Students will explore electronic musical instruments, computer-assisted instructions, MIDI sequencing \& music notation.
Course ID: 190971
Credit: 1

## Music Theory

This course includes the study of fundamental notation, intervals, triads, basic chord structure \& principles of voice leading. Students electing this course should have some basic music reading knowledge \& advanced interest in the formal study of music. The course is considered to be a precollege course, which may result in advanced placement in a college music theory program.
Course ID: 190331/ 190332
Credits: 1 credit per semester

## AP Music Theory (adding in 25-26)

This AP Music Theory course is designed to develop aural, performance, composition and theoretical knowledge skills of students to levels beyond the high school level. Students are encouraged to progress to be able to take the AP exam during fourth quarter. Students who select NOT to participate in the AP exam are expected to take a cumulative, AP comparable, teacher-graded end of course exam.
Course ID: 191521/ 191522
Credits: 1 credit per semester

## CHORAL

## Bass Chorus (9-12)

Open to 9-12th graders who wish to participate in a chorus of bass voices. Basic vocal concepts are stressed through literature that is appropriate for tenor \& bass voices. Performance opportunities are included as an extension of the classroom activities including concerts /contests in the Omaha area. Students are required to participate in all performances.
Course ID: 192061 / 192062
Credits: 1 per semester

## Chamber Ensemble (10-12)

This course is an advanced chamber ensemble for mixed voicing selected by audition. Members may be simultaneously enrolled in one of a school's principal choral organization. Frequent performance must be a consideration for enrollment.
Prerequisite: By audition only
Course ID: 190471 / 190472
Credits: 1 per semester

## Concert Choir/Honors Concert Choir (10-12)

The principal performing choral organization of Buena Vista High School. Rehearses \& performs music of all musical periods of history. Performances usually include fall, winter, \& spring concerts as well as the All-City Music Festival.
Prerequisites: Membership is selected by audition.
Course ID: 190281/190282
Honors Course ID: 190351/190352
Credits: 1 credit per semester

## Honors Show Choir (10-12)

The principal show choir of the high school; an advanced choral ensembles, which usually consist of three to five mixed, equally balanced quartets, are available by audition to students who are simultaneously enrolled in one of the school's principal choral organizations. One of the primary functions of these groups is to serve as "ambassadors" for the school. Choreographed routines \& frequent performance, often requiring time outside of school, must be a student consideration for enrollment. Students are required to participate in all scheduled performances.
Prerequisites: Membership is selected by audition
Course ID: 190331/ 190332
Credits: 1 credit per semester

Treble Chorus (9-12)
This course is open to all girls who wish to participate in a choral class of treble voices. Basic vocal concepts are stressed through literature that is appropriate soprano \& alto voices. Performance opportunities are included as an extension of the classroom activities. Students are required to participate in all scheduled performances.
Course ID: 190311 / 190312
Credits: 1 per semester

## INSTRUMENTAL

Concert Band 1-2 (9-12)/Honors Concert Band 1-2 (10-12)
The principal instrumental group at Buena Vista High. Performs at all home football games, numerous marching band festivals \& parades. The concert season consists of rehearsing \& performing music from all periods of history. Performances include winter \& spring concerts, as well as the AllCity Music Festivals. The band also performs at home basketball games. Prerequisites: Prerequisites: One year of instrumental music study or previous year continuous enrollment.
Course ID: 190671/190672
Honors Course ID: 190681/190682
Credits: 1 credit per semester
Honors Flag Corp (9-12)
This course is considered to be the principal performing corp in the high school instrumental music curriculum. Students will rehearse \& perform standard flag corp routines with performance technique. Membership is by audition. The Flag Corp serves as an extension of the marching band program during the first semester's activities. Other performances include winter \& spring guard. Students are required to participate in all scheduled performances. *PE Credit can be earned.
Prerequisites: Membership is selected by audition.
Course ID: 191121/ 191122
Credit: 1 per semester
*Students MAY take 1st semester a semester course but cannot take
$2^{\text {nd }}$ semester without taking $1^{\text {st. }}$
Guitar 1-2 (9-12)
This course is designed for 9th through 12th grade students with any level of guitar experience. Students will learn a foundation of guitar-playing technique with an emphasis on note-reading. The fundamentals of musicianship \& composing music for the guitar will also be taught. In-class performances (alone \& in groups) will be the focus of this class. However, one outside-of-class performance per semester is required. Students are encouraged to purchase their own guitar (electronic or acoustic). There are a limited number of instruments available for student use on a need basis only.
Course ID: 191131 / 191132
Credit: 1 credit per semester
Guitar 3-4 (9-12)
In this course students will build on the foundation of playing techniques covered in Guitar 1-2. Note reading studies will cover all frets in first position as well as higher positions. Advanced techniques such as right hand finger style \& classical (pima) will be taught. Chord studies will include moveable bar chords. Ear-training \& transcribing music for the guitar will also be taught. Students will perform alone \& in a variety of ensemble settings including a guitar recital in the spring semester. Students are encouraged to purchase their own guitar (steel or nylon string -no electric guitars). There are a limited number of instruments available for student use on a need basis only.
Prerequisites: Completion of Guitar 1-2 or teacher rec
Course ID: 191141 / 191142
Credit: 1 credit per semester
Jazz Band (10-12)
This course is a high school instrumental ensemble comprised of advanced instrumental students who are simultaneously enrolled in Concert Band or Orchestra. Various jazz rudiments \& improvisation techniques are introduced through a variety of jazz \& popular styles of music.
Prerequisites: Membership is by audition.
Course ID: 190591/ 190592
Credits: 1 per semester

Orchestra 1-2 (9-12)/Honors Orchestra 1-2 (10-12)
This course is for all string players as well as instrumentalists. Students will participate in concerts throughout the year.
Prerequisites: One year of instrumental music study or previous year continuous enrollment.
Course ID: 190851/190852
Honors Course ID:190791/190792
Credits: 1 credit per semester

## Prep Band (9-12)

This course is designed to give 9-11 graders the option to learn a band instrument. Prep Band is a year-long course with the intention of moving students into the Concert Band the following school year. Students will be expected to perform at the winter \& spring concert.
Course ID: 190571/190572
Credits: 1 credit per semester

Percussion Class (9-12)
The high school Percussion class is designed to provide students with a comprehensive approach to percussion instruments \& techniques. This course will explore various percussion instruments, their history, \& their roles in different musical genres \& ensembles. Students will develop their skills in playing percussion instruments \& gain an understanding of rhythm, timing, \& musical expression. Students will develop their skills in keyboard, battery, \& auxiliary percussion instruments. The course requires attendance for marching events, pep band events, \& all band concerts. Prerequisites: Previous experience in band course or teacher approval Course ID: 190691/ 190692
Credits: 1 credit per semester

## Physical Education / Human Growth \& Development

Aerobics 1-2 (10-12)
An introduction to aerobic fitness. Consists of low to moderate impact activity. Activities include floor box aerobics, toning, weight training, \& activities on the track. A basic understanding of nutrition \& fitness training will be covered. There will be written assignments, tests \& quizzes.
Course ID: 070451/070452
Credits: 1 credit per semester

## Human Growth \& Development (10-12)

Course helps senior students acquire responsible decision-making skills related to wellness, communication skills, healthy relationships, preventing abuse, chemical usage, sexuality, prenatal care, etc. All high school students are required to take Human Growth \& Development; a parent/guardian may choose to opt out of his/her student; there is a formal notification that must be signed \& submitted to school administration.
Course ID: 070931
Credits: 1

## PE Leadership (12)

This course is ideal for the student athlete who wants to seriously train for high school sports. The course will teach student athletes the proper way to train \& the leadership skills which are essential in becoming leaders in the school \& out in the community. Physical activities will incorporate balance, neuromuscular coordination, improving basic running technique, various methods of strength training, \& flexibility. The goal is to focus on an individual's strengths \& weaknesses \& to enhance their sport performance \& overall athleticism through speed, strength, \& movement training. Classroom activities will incorporate nutrition, sport psychology, lessons in leadership, \& goal setting. The course will also include a minimum of 8 hours of community service as a component of the class. While course is recommended for athletes, it is open to all students. Prerequisites: School expectation - placement is by selection
Course ID: 070381 / 070382
Credits: 1 credit per semester

## Physical Education 1-2 (9)

This is the $9^{\text {th }}$ grade PE course which involves students in the development of personal fitness \& participation in a variety of sports, games, \& dance activities.
Course ID: 070181 / 070182
Credits: 1 credit per semester

Team Sports 1-2 (10-12)
This course will consist of instruction in rules, strategies, skills \& sportsmanship concepts. Activities may include: flag football, soccer, volleyball, basketball, team handball, softball, \& floor hockey. A fitness unit will be taught.
Course ID: 070471 / 070472
Credits: 1 credit per semester
Light Weight Training \& Conditioning 1-2 (10-12)
This course emphasizes improvement in muscular endurance, strength \& power. Proper lifting techniques are taught through the use of light weights \& high repetitions. Healthy living concepts, such as proper nutrition \& stress reduction, will be a part of class discussions. A fitness unit will be taught.
Course ID: 070251 / 070252
Credits: 1 credit per semester
Advanced Weight Training \& Conditioning 1-2 (11-12)
This is a second year class that expands instruction in strength, flexibility \& aerobic training.
Prerequisites: Completion of Light Weight Training \& Cond.
Course ID: 070281 / 070282
Credits: 1 credit per semester
P.E. Mentors (10-12)

This course is designated for exceptional learners to participate in physical education with ACP students. P.E. Mentors will be responsible for assisting ACP students with objectives individually \& as a group. Emphasis is placed on sportsmanship \& developing motor skills needed for independent living for the ACP population.
Prerequisites: Must be a member of the Health \& Education Pathway and/or teacher \& administrator approval.
Course ID: 070381/ 070382
Credits: 1 credit per semester

## Science

Anatomy \& Physiology 1-2 (10-12)
This course enables students to understand the principles \& structures of the human body. Students develop an understanding of the structure \& function of complex human organ systems through inquiry-based laboratory experiences using up-to-date technology. This course will explore scientific \& technological advances in the field of anatomy. Students will also explore career opportunities in medical \& related fields. The study \& application of vocabulary \& terminology is an essential part of this course. Students will incorporate writing \& literacy strategies into summative projects. Laboratory dissections are required. Students enrolled in honors courses have additional experiences that require a more rigorous program of study Prerequisite: Successful completion of Physical Science 1-2 \& Biology 1-2. Course ID: 060931/060932
Credits: 1 per semester
Biology 1-2 / Honors Biology 1-2 (10-12)
This course engages students in inquiry-based problem solving as they investigate biological issues that are relevant to their daily lives. Topics of study include: the cell; the molecular basis of heredity; biological evolution; the interdependence of organisms; \& matter, energy, \& organization in living systems. This course meets the district requirement for biology. Students enrolled in honors courses have additional experiences that require a more rigorous program of study.
Course ID: 060411/060412
Honors Course ID: 060431/060432
Credits: 1 per semester
AP Biology 1-2 (11-12)
AP Biology is an introductory college-level biology course. Students cultivate understanding of biology through inquiry-based investigations as they explore the following topics: evolution, cellular processes - energy \& communication, genetics, information transfer, ecology, \& interactions. Students who select NOT to participate in the AP exam are expected to take a cumulative, AP comparable, teacher-graded end of course exam. Prerequisites: Physical Sci 1-2, Biology 1-2 with C or better/teacher rec. Course ID: 060471/060472
Credits: 1 per semester
Chemistry 1-2 / Honors Chemistry 1-2 (10-12)
This course engages students in both theoretical \& practical problemsolving strategies as they investigate chemical issues that are relevant to their daily lives. Topics of study include laboratory processes, chemical safety, atomic structure, properties of matter, \& chemical reactions.
Prerequisite: Physical Science 1-2, Biology 1-2 (concurrent enrollment in Biology 1-2 is acceptable with teacher recommendation), \& successful completion of, or concurrent enrollment in, Algebra 1-2
Course ID: 060551/060552
Honors Course ID: 060561/060562
Credits: 1 per semester

Earth Science 3-4 (10-12)
Earth Science 3-4 is an inquiry-based course that builds upon content from Nebraska's earth science standards that were introduced in the Physical Science \& Biology 1-2 course sequence. Students use scientific inquiry to further explore concepts of Earth's composition \& how it is studied, the history \& dynamics of Earth, \& the reshaping the Earth's crust, atmosphere, atmospheric forces, \& oceans.
Prerequisites: Physical Science 1-2 \& Biology 1-2
Course ID: 061061 / 061062
Credits: 1 credit per semester
Forensic Science (10-12)
Promotes active learning \& emphasizes the application \& integration of math, chemistry, biology, physics, \& earth science. Topics covered may include: collection, handling, \& examination of trace evidence such as hair, fibers, soil, pollen, \& glass, fingerprint, blood, \& blood splatter examination, DNA, drug \& toxicology testing, handwriting \& tool mark analysis, voice examination, impressions, ballistics, \& forensic anthropology.
Prerequisites: Successful completion of Physical Sci 1-2 \& Biology 1-2.
Course ID: 061331 / 061332
Credits: 1 per semester
Physical Science (9-12)
Physical Science is an inquiry-based course designed to expose students to selected concepts in chemistry, physics, earth, \& space science. Topics include matter, energy, forces \& motion, Earth in space, \& Earth structures \& processes. This course provides a foundation for other science courses. Students that enroll in honor courses have additional experiences that require a more rigorous program of study.
Course ID: 060501/060502
Credits: 1 per semester
Physics (10-12)
Physics 1-2 engages students in an inquiry-based, problem-solving approach to investigate the physical laws that are fundamental to all science. Topics of study include motion \& technological design; the effects of forces on motion; the origin of the universe; conservation of energy; \& the interaction of energy \& matter.
Prerequisites: Physical Science 1-2, Biology 1-2 (concurrent enrollment in Biology 1-2 is acceptable with teacher recommendation), \& successful completion of, or concurrent enrollment in, Algebra 1-2.
Course ID: 060601/060602
Honors Course Id: 060631/060632

## Skilled \& Technical Sciences

## Mechanical Electrical 1-2 (10-12)

10 - Mechatronics Pathway
*Possible Dual Enrollment with MCC
In this course, learners are introduced to the basic concepts of advanced manufacturing \& the many modern technologies used to automate processes. The course uses highly engaging interactive multimedia computer course materials with simulations of the various technologies. The interactive multimedia simulations are combined with hands-on work using automation equipment to provide an immersive experience. Topics include 3D Computer Aided Design (CAD), Robotics programming, CNC programming, electrical control systems, electronic sensors, pneumatics, basic measurement, safety, \& materials \& processes.
Course ID: 172641 / 172642
Credits: 1 credit per semester

## Mechanical Electrical 3-4 (11-12)

11 - Mechatronics Pathway
*Possible Dual Enrollment with MCC
In this course, students will learn new skills that build on the technologies covered in the introductory course \& combine these technologies into systems. New technology topics will use interactive multimedia computer course materials with simulations \& hands-on work with real automation equipment. Students will also work on team projects to design \& build working prototype machines that incorporate the various technologies. Topics include: Programmable Logic Controllers (PLCs), Flexible Manufacturing/Robotic Systems, Automation Cells, Materials Engineering, Mechanical Systems, Machining, Concepts of Quality, CAD, Print Reading, Electrical Controls, \& Safety.
Prerequisites: Successful completion of MECHANICAL ELECTRICAL 1-2 Course ID: 172651 / 172652
Credits: 1 per semester

## Mechanical Electrical 5-6 (11-12)

12 - Mechatronics Pathway
*Possible Dual Enrollment with MCC
In this course, students will learn new skills that build on the technologies covered in the MECHANICAL ELECTRICAL 1-2 \& 3-4 courses \& combine these technologies into systems. New technology topics will use interactive multimedia computer course materials with simulations \& hands-on work with real automation equipment. Learners will also work on team projects to design \& build working prototype machines that incorporate the various technologies. Topics include: Mechatronics Systems, Lean Manufacturing, Hydraulics, CAD/CAM, Materials Engineering, Plastics Injection Molding, Mold Design, \& Welding Concepts.
Prerequisites: Successful completion of MECHANICAL ELECTRICAL 3-4 Course ID: 172661 / 172662
Credits: 1 per semester

Intro To Robotics 1-2 (10-12)
10 - Robotics Pathway
*Possible Dual Enrollment with MCC
Students will design \& build robots to participate in area robotics competitions. Major units of study will focus on the engineering design process, designing \& building a controllable base, designing, \& building a manipulator \& programming of the mechanical system using logic-based control \& simple sensors.
Course ID: 172141 / 172142
Credits: 1 credit per semester
Industrial Robotics 3-4 (11-12)
11 - Robotics Pathway
*Possible Dual Enrollment with MCC
Students will thoroughly examine a robotics design problem \& implement the best possible solution to the proposed problem. The problem will require students to develop deeper understanding of robotics design \& implementation including programming \& using robotics arms. Examples would include structural design, weight distribution, drivetrains, pneumatic controls, alternative methods of transferring motion \& in-depth precision programming control. Students will be introduced into the fundamentals of Industrial Robots.
Prerequisites: Successful completion of INTRO TO ROBOTICS 1-2
Course ID: 172731/172732
Credits: 1 credit per semester
Industrial Robotics 5-6 (12)
12 - Robotics Pathway
*Possible Dual Enrollment with MCC
Student will thoroughly examine robotics design problem, develop an original possible solution, and document the stages of the design process. The problem will require student to develop deeper understanding of robotics design, implementation, and problem solving for a specified criterion. This course applies science, technology, engineering, and math (STEM) concepts. Examples would include structural design, weight distribution, drivetrains, pneumatic controls, alternative methods of transferring motion and in-depth precision programming control. Students will learn to program and a Fanuc Robotic arm and its uses. Prerequisites: Successful completion of INDUSTRIAL ROBOTICS 3-4
Course ID: 172741 / 172742
Credits: 1 credit per semester

## Social Studies

## African-American History (10-12)

This semester-long course addresses the continued struggle for political, educational, \& economic equality by African Americans. Emphasis is placed on the contributions of African Americans in the development of an industrialized United States as well as their place in the historical record.
Course ID: 030521
Credits: 1

## Human Geography (10)

What is HUMAN GEOGRAPHY? This course provides an effective method for studying human activities on Earth's surface. Human interaction with one another \& the environment will be studied \& analyzed to provide an understanding of the world in which we live. The course is divided into four units: Population \& Cultural Geography, Urban Geography, Political Geography, \& Economic \& Environmental Geography.
Course ID: 031011
Credits: 1

## AP Human Geography 1-2 (10-12)

*Dual Enrolled
The purpose of the AP course in Human Geography is to introduce students to the systematic study of patterns \& processes that have shaped human understanding, use \& alteration of Earth's surface. Students who select not to participate in the AP exam are expected to take a cumulative, AP comparable, teacher-graded end of course exam.
Prerequisite: Teacher recommendation or proficient completion of all social studies courses. Highly recommended to have completed an Honors level English class or have obtained "c" or higher in a general level English class. Course ID: 030191/030192
Credits: 1 per semester

## American Government (12)

American Government addresses the theories \& practices that are the basis to the nation's form of government. Students analyze the structure, operations, \& functions of local, state, \& national governments. This helps students better prepare themselves to practice participatory citizenship, as related to their responsibilities \& rights as citizens. This is a one-semester course.
Course ID: 030251
Credits: 1

## AP US / Comparative Government (12)

*Dual Enrolled / enrollment in both semesters expected
Semester 1: AP United States Government \& Politics introduces students to key political ideas, institutions, policies, interactions, roles, \& behaviors that characterize the political culture of the United States. The course examines politically significant concepts \& themes, through which students learn to apply disciplinary reasoning assess causes \& consequences of political events, \& interpret data to develop evidence-based arguments. Concurrent enrollment in AP Literature \& Composition is recommended. Students who select NOT to participate in the AP exam are expected to take a cumulative, AP comparable, teacher-graded end of course exam.
Semester 2: AP Comparative Government \& Politics introduces students to the rich diversity of political life outside of the United States. The course uses a comparative approach to examine the political structures; policies; \& the political, economic, \& social challenges among six selected countries: Great Britain, Mexico, Russia, Iran, China, \& Nigeria. Additionally, students examine how different governments solve similar problems by comparing the effectiveness of approaches to many global issues.
Course ID: 030261 / 030262
Credits: 1 per semester

## Intro to Economics (10)

Intro to Economics examines the key concepts of economics through study of various sectors of market systems. Fundamentals, micro, macro, \& international economic concepts are presented \& studied. Emphasis is given to the role of the citizen in America's market structure. One-semester course.
Course ID: 030461
Credits: 1

## Honors Introduction Economics (10)

Honors Introduction to Economics examines the key concepts of economics through study of various sectors of market systems. Fundamentals, micro, macro, \& international economic concepts are presented \& studied.

Emphasis is given to the role of the citizen in America's market structure. Students are required to research \& analyze the structure \& function of economics in the United States today. Honors students will also be expected to perform extension activities on their Curriculum Based Assessments (CBA's). One-semester course. Concurrent enrollment in Honors English 3-4 is highly recommended.
Course ID: 030481
Credits: 1
Law \& Juvenile Justice (11--12)
Law \& Juvenile Justice focuses on the understanding of American society \& its system of laws. Effective participation within America's legal structure is highlighted. The course investigates the structure \& implementation of criminal law, the criminal justice process, \& the identification \& analysis of civil law. One semester course.
Course ID: 030621
Credits: 1
Mexican-American History (10-12)
This semester-long course examines Mexican history as well as the Mexican American experience in the United States. Particular attention is given to Omaha's Mexican American community. One semester course.
Course ID: 030401
Credits: 1
Modern World History 1-2 (11)
Modern World History 1-2 explores the culture \& history of people from 1000 CE to the present. As students examine the choices \& decisions of the past, they are better able to confront today's problems \& choices with a deeper awareness of the alternatives before them, \& the likely consequences of each.
Prerequisites: Successful completion of $9^{\text {th }}$ grade U.S history \& 10 th grade Human geography.
Course ID: 031381/031382
Credits: 1 per semester

## AP World History (11)

*Dual Enrolled
Advanced Placement World History 1-2 is a modern world history course. Students cultivate their understanding of world history from c. 1200 CE to the present through analyzing historical sources \& learning to make connections \& craft historical arguments as they explore concepts like humans \& the environment, cultural developments \& interactions, governance, economic systems, social interactions \& organization, \& technology \& innovation. Students who select not to participate in the AP exam are expected to take a cumulative, AP comparable, teacher-graded end of course exam.
Prerequisites: Concurrent enrollment in AP EL \& Composition is highly recommended.
Course ID: 030421/030422
Credits 1 per semester

## Omaha History (10-12)

Omaha History explores the rich \& colorful past of one of America's great cities. From the Native Americans who first settled here, to the diverse ethnic groups who later called this place home, Omaha has possessed a unique, vibrant, \& sometimes gaudy history that is full of interesting \& inspiring stories of the individuals who have made their marks here. Students also learn about the architecture \& cultural institutions that have made the city what it is today. One semester course.
Prerequisites: Successful completion of 9 th grade U.S History.
Course ID: 030711
Credits 1

## Psychology (10-12)

*11 - Behavioral Health Pathway
This semester-long course explores the complex nature of human behavior. Emphasis is placed upon the most significant concepts of contemporary psychology as well as how psychologists study behavior.
Course ID: 030491
Credits: 1
AP Psychology 1-2 (11-12)
*11 - Behavioral Health Pathway
*Dual Enrolled

AP Psychology is designed to introduce students to the systematic \& scientific study of the behavior \& mental processes of human beings \& other animals. Students are exposed to the psychological facts, principles, \& phenomena associated with each of the major subfields within psychology. They also learn about the ethics \& methods psychologists use in their science \& practice. Students who select NOT to participate in the $A P$ exam are expected to take a cumulative, AP comparable final exam.
Course ID: 030641/030642
Credits: 1 per semester

## Sociology (10--12)

*11 - Behavioral Health Pathway
Sociology explores the structure of society from both a historical \& contemporary base. Students examine the ways in which people interact with one another; learning about relationships in social institutions, such as the family, \& the organization of societies, both locally \& globally. The course also deals with vital issues \& social concerns, such as the struggle for civil rights, socialization at a young age, adolescent relationships, crime, poverty, \& social stratification. One semester course.
Course ID: 030531
Credits: 1

United States History 1-2 (9)
This course is a graduation requirement for all students. This course continues the study of United States history from 1914 to present. Students address the social, economic, \& political development of the nation \& relate it to both past \& present. Instruction is organized around the themes of geography, history, economics, culture, \& citizenship. Students investigate these themes using textbooks, newspapers, novels, primary sources, \& technology.
Course ID: 030901 / 030902
Credits: 1 per semester
Honors United States History 1-2 (9)
See United States History 1-2 course description. Students are required to research \& analyze specific concepts in United States history \& relate it to current events.
Prerequisite: Any one of the following: Grade of "B" or higher in Social Studies -8 1 \& 2, MAP Reading score at or above a score determined by District Social Studies Supervisor.
Course ID: 030911 / 030912
Credits: 1 per semester

## Special Education

Students with disabilities have a variety of course options at the high school level. The intent is to provide the maximum amount of participation in the general education setting through strategic interventions, collaborative teaching \& direct instruction. Regular district assessments are administered. Students may participate in:
-General education classes with support in a resource period. Focus is given to developing learning \& study strategies. Students will be expected to define compensatory skills to facilitate active learning in the general education classroom setting. Class activities will include but not be limited to time management, goal setting, problem solving, assignment analysis \& self-advocacy.

- General education classes that are co-supported by a general education teacher \& special education teacher. In a co- taught class, both teachers share instructional responsibilities for the students by co-planning, co-instructing \& co- assessing.
- Special education sections of core classes such as English or mathematics. These classes cover the same standards but may utilize materials with modified reading levels while using a slower pace to cover the standards. A students IEP must indicate a need in English or mathematics (reading and/or writing) to recommend placement in an English or mathematics resource classroom. Students with more severe disabilities may participate in an alternate curriculum focusing on alternate standards \& functional living skills. Most instruction for these students is provided by a special education teacher in the core areas with the students participating in general education classes \& activities as appropriate. Progress is measured using the state alternate assessment.
The following special education programs are available in our building:
Resource: This program serves students with a variety of disabilities. Special education staff provides interventions, accommodations \& modifications that support the students' participation \& progress in the general curriculum.
Behavioral Skills Program: This program focuses interventions on the social, emotional \& behavioral needs of students while providing instruction to support the students' participation \& progress in the general curriculum. Behavior intervention plans are individualized to meet the needs of each student. Students are integrated into general education classrooms whenever possible.

Alternative Curriculum Program (ACP): This program serves students with multiple disabilities in an environment that supports students' medical \& sensory needs. The instructional program addresses the cognitive, communication, community, motor, self-help, social skills, \& pre-vocational domains. Opportunities are provided to participate in activities with non-disabled peers. Other Services Provided: Assistive Technology, Hearing, Occupational Therapy, Physical Therapy, Speech Language, Vision.

Affective Skills (9-12)
Addresses social skills incorporated into the student's daily living. A practical approach with group discussion \& classroom participation is emphasized. Students are encouraged to explore problem solving skills, decision making skills, \& skills for independence. Communication \& positive self-esteem is fostered.
Prerequisite: meets IEP requirements \& teacher rec
Course ID: 090751/090752
Credits: 1 per semester

## World Languages

## French 1-2 (9-12)

This course in World Languages at the first-year level stresses interpretive, presentational, \& interpersonal communication abilities to develop survival skills in the target language. Students become aware of the personal \& economic opportunities that knowing a second language will bring them \& how that knowledge will enable them to function better both in the United States \& globally. They also begin to develop an awareness \& appreciation of the various cultures associated with that language as well as the impact these cultures have made on their own community, country, \& world.
Course ID: 160301/160302
Credits 1 per semester
French 3-4 (9-12)
This course in World Languages at the second-year level is a continuation \& expansion of the principles \& concepts of the first year. During this time, students continue to work extensively with interpretive, presentational, \& interpersonal communication skills while also delving more extensively into language structure, reading for information \& general composition. Students continue to develop an awareness \& appreciation of the various cultures associated with that language as well as the impact these cultures have made on their own community, country, \& world.
Prerequisites: Successful completion French 1-2 or teacher recommendation.
Course ID: 160311/160312
Credits 1 per semester
Honors French 5-6 (10-12)
This third-year level World Languages course, designated as Honors classes, emphasizes using the target language, authentic materials, \& technology throughout instruction. Students are required to use the language to a greater extent in increasingly complex interpretive, presentational, \& interpersonal communication skills. Students will explore a variety of fiction \& non-fiction genres in the target language. Students are expected to write coherent paragraphs, short stories, \& outlines. Cultural projects are to be carried out in the target language. Students continue to develop an awareness \& appreciation of the various cultures associated with that language as well as the impact these cultures have made on their own community, country, \& world.
Prerequisites: Successful completion French 3-4 or teacher recommendation.
Course ID: 160351/160352
Credits 1 per semester
Spanish 1-2 (9-12)
This course in World Languages at the first year level stresses interpretive, presentational, \& interpersonal communication abilities to develop survival skills in the target language. Students become aware of the personal \& economic opportunities that knowing a second language will bring them \& how that knowledge will enable them to function better both in the United States \& globally. They also begin to develop an awareness \& appreciation of the various cultures associated with that language as well as the impact these cultures have made on their own community, country, \& world.
Course ID: 160501/160502
Credits: 1 per semester
Spanish 3-4 (9-12)
Second-year level is a continuation \& expansion of the principles \& concepts of the first year. During this time, students continue to work extensively with interpretive, presentational, \& interpersonal communication skills while also delving more extensively into language structure, reading for information \& general composition. Students continue to develop an awareness \& appreciation of the various cultures associated with that language as well as the impact these cultures have made on their own community, country, \& world.
Prerequisite: Grade of C or better in Spanish 1-2 strongly recommended. Course ID: 160511/160512
Credits: 1 per semester

Honors Spanish 5-6 (10-12)
This third-year level World Languages Honors course emphasizes using the target language, authentic materials, \& technology throughout instruction. Students are required to use the language to a greater extent in increasingly complex interpretive, presentational, \& interpersonal communication skills. Students will explore a variety of fiction \& non-fiction genres in the target language. Students are expected to write coherent paragraphs, short stories, \& outlines. Cultural projects are to be carried out in the target language. Students continue to develop an awareness \& appreciation of the various cultures associated with that language as well as the impact these cultures have made on their own community, country, \& world. Prerequisites: Successful completion Spanish 1-2 or 3-4 or teacher recommendation.
Course ID: 160551/160552
Credits: 1 per semester
Honors Spanish 7-8 (11-12)
This course in World Languages at the fourth-year level will often center around discussions \& reports. Students interpretive, presentational, \& interpersonal communication skills become more advanced in order to develop the student's ability to produce the language in more complicated forms. Reading will move to comparatively complex forms of authentic materials, readings, \& literature. The study of cultures, art, music, poetry, \& literature continues to be stressed. Students continue to develop an awareness \& appreciation of the various cultures associated with that language as well as the impact these cultures have made on their own community, country, \& world.
Prerequisites: Successful completion of Spanish 1-2, 3-4, 5-6
Course ID: 160561/160562
Credits: 1 per semester
Spanish for Spanish Speakers 1-2 (9-12)
This course is designed for students who speak Spanish fluently but have difficulty reading \& writing the language. Most of these students feel more comfortable reading \& writing in English. Students will develop basic Spanish literacy skills along with gaining a deeper knowledge of the culture, history, \& literature of the Spanish language. The course is taught in Spanish.
Prerequisite: Course taught in SPANISH, students should be fluent.
Course ID: 160851/160852
Credits: 1 per semester
Spanish for Spanish Speakers 3-4 (9-12)
This course is designed for fluent Spanish speakers who have basic Spanish skills in reading, writing, speaking, and listening. The course is taught in Spanish and focuses on developing a Spanish speaker's writing and reading comprehension of the Spanish language. Students read short stories, poetry, and write longer passages in Spanish. The course is taught in Spanish.
Prerequisite: Successful completion of Spanish for Spanish Speakers 1-2 or teacher recommendation.
Course ID: 160831/160832
Credits: 1 per semester
Honors Spanish for Spanish Speakers 3-4 (9-12)
This course is designed for fluent Spanish speakers with above basic Spanish skills in reading and writing. It focuses on honing academic Spanish skills in listening and speaking while continuing to focus on reading and writing skills. Students will gain deeper knowledge of Hispanic cultures, histories and literature through this class.
Prerequisite: Grade of C or better in Spanish for Spanish Speakers 1-2 or teacher recommendation.
Course ID: 160861/160862
Credits: 1 per semester
Honors Spanish for Spanish Speakers 5-6 (10-12)
This course is a continuation of Honors Spanish for Spanish Speakers 3-4 and is designed for students with above average Spanish literacy skills. It focuses on honing academic Spanish skills in listening and speaking while continuing to focus on reading and writing skills. Students will gain deeper knowledge of Hispanic cultures, histories and literature through this class. Students are strongly encouraged to take this course to prepare for AP Spanish Language and/or Literature.
Prerequisite: Successful completion of Spa for Speakers 3-4 or teacher rec.. Course ID: 160871/160872
Credits: 1 per semester

AP Spanish Language \& Culture (11-12)
*May be taken concurrently with AP Spanish Lit
The AP Spanish Language \& Culture course emphasizes communication (understanding \& being understood by others) by applying interpersonal, interpretive, \& presentational skills in real-life situations. This includes vocabulary usage, language control, communication strategies, \& cultural awareness. The AP Spanish Language \& Culture course strives not to overemphasize grammatical accuracy at the expense of communication. To best facilitate the student of language \& culture, the course is taught almost exclusively in Spanish. The AP Spanish Language \& Culture course engages students in an exploration of culture in both contemporary \& historical contexts. The course develops students' awareness \& appreciation of cultural products (e.g., tools, books, music, laws, conventions, institutions); practices (patterns of social interactions within a culture); \& perspectives (values, attitudes, \& assumptions). Students who select NOT to participate in the AP exam are expected to take a cumulative, AP comparable, teacher-graded end of course exam.
Recommendation: C or higher in H Spanish 5-6 or Spanish for Spanish Speakers 3-4; or teacher recommendation
Course ID: 160581/160582
Credits: 1 per semester

AP Spanish Literature \& Culture (12)
*May be taken concurrently with AP Spanish Lang
The AP Spanish Literature \& Culture course uses a thematic approach to introduce students to representative texts (short stories, novels, poetry, \& essays) from Peninsular Spanish, Latin American, \& United States Hispanic literature. Students develop proficiencies across the full range of communication modes (interpersonal, presentational, \& interpretive), thereby honing their critical reading \& analytical writing skills. Literature is examined within the context of its time \& place, as students reflect on the many voices \& cultures present in the required readings. The course also includes a strong focus on cultural connections \& comparisons, including exploration of various media (e.g., art, film, articles, literary criticism). Students who select NOT to participate in the AP exam are expected to take a cumulative, AP comparable, teacher-graded end of course exam.
Recommendation: C or higher in Spanish 5-6 or Spanish for Spanish Speakers 5-6; or teacher recommendation. Successful completion of AP Spanish Lang is strongly recommended.
Course ID: 161121 / 161122
Credits: 1 per semester

[^0]:    *If recommended by middle school, $9^{\text {th }}$ graders will be required to take Reading as an elective.
    $* * 4$ semesters of PE/JROTC are required for graduation. First semester of concert band satisfies 1 PE credit.
    ***Many colleges require two years of the same world language.
    ****Many colleges require four years of math (Algebra 1-2 and higher).
    *****OPS
