

Student Information Packets - SIP

For the 2022-2023 school year, the beginning-of-year student information forms will all be online for Lewis & Clark. To complete the student information forms all parents will need to have a Campus Parent portal account.

To update your forms online:

- Log into your Campus Parent Account
- In the menu on the left column, choose Online Registration (under more)
- Click Existing Student Enrollment

All of student's current information will default. Please make any necessary updates and submit.

By completing online information ahead of our orientation night, it will save you time and will allow us to check off that your information has been submitted.

If you have any questions or need help with your Campus Parent account, please contact the main office at 531-299-2400 or email our secretary at michelle.kehr@ops.org for assistance.
