Independent Auditor's Report

To the Board of Education
Omaha School Employees' Retirement System:

Report on the Financial Statements

We have audited the accompanying financial statements of the fiduciary net position of the Omaha School Employees' Retirement System (OSERS), a fiduciary fund of Douglas County School District #0001 (District), as of and for the year ended August 31, 2015, and the related notes to the financial statements, which collectively comprise OSERS' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of OSERS as of August 31, 2015, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Seim Johnson, LLP › 18081 Burt Street, Suite 200 › Omaha, NE 68022-4722 › Tel: 402.330.2660 › Fax: 402.330.5108 › SeimJohnson.com

Emphasis of Matters

As discussed in Note 1, the financial statements present only the activity of OSERS and do not purport to, and do not, present fairly the financial position of the District as of August 31, 2015, or the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The financial statements include investments valued at $628,098,000 (52% of net position) as of August 31, 2015, whose fair values have been estimated by management in the absence of readily determinable values. A description of the methods used by management is included in Note 1. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

Our opinion is not modified with respect to these matters.

Other Matter

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 5 and the schedule of changes in the net pension liability on pages 15 – 16, the schedule of employer contributions on pages 17 – 19, and the schedule of money-weighted rate of return on page 20, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards* Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards,* we have also issued our report dated November 5, 2015, on our consideration of OSERS' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering OSERS' internal control over financial reporting and compliance.

Seim Johnson, LLP

Omaha, Nebraska,
November 5, 2015.

Management's Discussion and Analysis

Overview

The following overview is a discussion and analysis of the financial activities of the School Employees' Retirement System of Douglas County School District #0001 (the District), more commonly known as the Omaha School Employees' Retirement System (OSERS), for the fiscal year ended August 31, 2015. Its purpose is to provide explanation and insights into the information presented in the financial statements, notes to the financial statements, and required supplementary information.

Financial Highlights

Net position of the plan, which represent funds available to pay current and future pension benefits, decreased by $83.6 million during the fiscal year to $1,211 million. This 6.46% decrease in net position was due to a reduction in the market value of the investments held by the Retirement System.

The plan experienced total additions of over $23 million. The primary cause of the reduced amount of additions was the continuing volatility and weakness in the global economy, which resulted in a decrease in the value of the investment portfolio.

Total retirement benefits paid were higher than last year due to a continued large increase in the numbers of retirees, who are receiving greater retirement benefits. We continued to experience a larger number of employees who departed mid-career, continuing the increase in the refunds to members. Administrative expenses returned to a more normal level in 2015.

Overview of the Financial Statements

The discussion and analysis below is intended to assist the reader in better understanding the purpose and meaning of each of the key components of the financial statements, which are comprised of the following:

1. The *Statement of Fiduciary Net Position* presents information about assets and liabilities, with the difference between the two reported as *net position restricted for pensions*. The level of net position reflects the resources available to pay benefits to members when due. Over time, increases and decreases in net position measure whether the financial position of OSERS is improving or deteriorating.

2. The *Statement of Changes in Fiduciary Net Position* presents the results of fund operations during the year and discloses the additions and deductions from plan net position. It supports the net change that has occurred to the prior year's net asset value on the statement of plan net position.

3. The *Notes to the Financial Statements* provide additional information that is essential to gain a full understanding of the data provided in the basic financial statements. The notes provide important and detailed information about OSERS, the pension trust fund, and the statements themselves.

4. The *Required Supplementary Information* consists of data on the funded status of OSERS and the status of contributions from the District and the State of Nebraska.

Financial Analysis

The following table shows condensed information from the Statement of Fiduciary Net Position:

	Fiduciary Net Position (Thousands of Dollars)			
	2015	2014	Change	Percent
Total assets	$ 1,220,682	1,303,299	(82,617)	-6.34%
Total liabilities	9,575	8,577	998	11.64%
Net position	$ 1,211,107	1,294,722	(83,615)	-6.46%

The following table shows condensed information from the Statement of Changes in Fiduciary Net Position:

	Additions to Fiduciary Net Position (Thousands of Dollars)			
	2015	2014	Change	Percent
Employer contributions	$ 33,109	31,913	1,196	3.75%
Member contributions and Purchases of service	33,383	32,271	1,112	3.45%
State contributions	8,573	7,888	685	8.68%
Total contributions and purchases of service	75,065	72,072	2,993	4.15%
Net investment income (loss)	(51,289)	153,982	(205,271)	-133.31%

(1) Summary of Significant Accounting Policies

The following is a summary of the significant accounting policies of the Omaha School Employees' Retirement System (OSERS).

A. *Reporting Entity*

In 1909, the Douglas County School District #0001 (the District) began maintaining a retirement system for its teachers. Subsequently, the District added two more retirement systems, one covering non-teaching school employees and one covering school cafeteria employees. In 1951, the Nebraska State Legislature consolidated the three systems into one new system. The new system, OSERS, is a defined-benefit plan.

OSERS is included as a fiduciary fund of the District. The financial statements present only the financial position and changes in financial position of the Omaha School Employees' Retirement System and do not purport to, and do not present fairly, the financial position of the District, as of August 31, 2015, or the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

B. *Basic Financial Statements*

The financial transactions of OSERS are included in the fiduciary funds of the District. The fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, net position, additions, and deductions. This fund is used to report assets held in a trustee or agency capacity for others, and therefore, are not available to support the District's programs.

C. *Basis of Accounting/Measurement Focus*

OSERS activity is accounted for on an economic-resources measurement focus using the accrual basis of accounting. Member contributions are recognized in the period in which the contributions are due. Employer contributions and state of Nebraska contributions to OSERS are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan provisions.

D. *Method Used to Value Investments*

OSERS invests in both short-term and long-term securities. Investment managers are utilized to advise the Board of Trustees regarding investments. The market value of the investments will fluctuate as a result of interest rate changes and general economic conditions. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. The fair value of real estate investments is based on independent appraisals. Limited partnership investments that do not have an established market are reported at estimated fair value.

E. *Net Realized Gains and Losses on Investments and Other*

Market value fluctuations and changes in yields make it beneficial to periodically trade securities. These trades are recommended by the investment managers and are intended to maximize growth and earnings. When a trade is executed, the market value is compared to the cost and any difference is recorded as net realized gain or loss. No adjustments are recognized for the anticipated change in growth or yield.

August 31, 2015 (Thousands of Dollars)

F. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of fiduciary net position and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions an deductions during the reporting period. Actual results could differ from those estimates.

G. Subsequent Events

OSERS considered events occurring through November 5, 2015 for recognition or disclosure in the financial statements as subsequent events. That date is the date the financial statements were available to be issued.

(2) Plan Description and Contribution Information

A. Membership Information

Membership consisted of the following as of September 1, 2014, the date of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits	$	4,125
Deferred vested plan members		937
Active and leave of absence plan members		7,415
Total	$	12,477

B. Plan Description

The employees of the District, OSERS and Educational Service Unit #19 are covered by OSERS. OSERS is a single-employer retirement plan.

In accordance with Nebraska statutes, OSERS is governed by the Board of Education, which is advised by a Board of Trustees composed of three employees, one annuitant, three Board of Education members, two business people, and the Superintendent of the District. OSERS is administered by its Executive Director. The State of Nebraska has the authority under which plan obligations may be amended or established.

C. Contributions

Employees of the District, OSERS and Educational Service Unit #19 are required to contribute 9.78% of their annual salary to OSERS. The District, OSERS and Educational Service Unit #19 contribute 9.878% of member salaries or such amount above 9.878% necessary to maintain the solvency of OSERS. The State of Nebraska contributes 2% of the employees' compensation. Administrative costs of OSERS are financed through investment earnings.

D. Benefits Provided

Each employee who has completed five or more years of creditable service is eligible to elect a deferred vested service annuity in lieu of a refund of accumulated contributions. OSERS provides for various benefits including normal retirement benefits, early retirement benefits, disability benefits, and pre-retirement and post-retirement survivor benefits. These benefits are paid monthly from OSERS. For members hired prior to July 1, 2013, the benefits under OSERS are based on an average of the highest three years of salary earned by employees during their employment with the District, up to their normal retirement dates. For members hired on or after July 1, 2013, the benefits under OSERS are based on an average of the highest five years of salary earned by employees during their employment with the District, up to their normal retirement dates. Employees who terminate employment with fewer than five years of creditable service can elect to receive a refund or a rollover of the employee's contributions, plus accrued interest. For members hired prior to July 1, 2013, retirement benefits are increased by an annual, automatic cost of living adjustment of 1.5% or the increase in the consumer price index (CPI), whichever is lower. For members hired on or after July 1, 2013, retirement benefits are increased by an annual, automatic cost of living adjustment of 1.0% or the increase in the CPI, whichever is lower. Following ten full years of retirement, a medical cost of living supplement is paid. This supplement equals $10 per month for each year retired and increases by $10 each year to a maximum of $250 per month. For retirees with less than twenty years of service, the benefit is reduced proportionately.

August 31, 2015 (Thousands of Dollars)

(3) Cash and Investments

A. *Legal and Contractual*

OSERS investments are governed by State statute 79-9,108 and 79-9,111. These statutes state that the Board of Trustees of OSERS, with approval of the Board of Education, shall invest and reinvest funds of OSERS. The Board of Education shall approve or deny the investments each month. The Board of Trustees shall invest the funds of OSERS in investments of the nature which individuals of prudence, discretion, and intelligence acquire or retain in dealing with property of another. Such investments shall not be made for speculation, but for investment, considering the probable safety of their capital as well as the probable income derived.

The Board of Trustees shall not purchase investments on margin or enter futures contracts or other contract obligations which require the payment of margin, or enter into any similar contractual arrangement which may result in losses in excess of the amount paid or deposited with respect to investment contracts, unless such transaction constitutes a hedging transaction or is incurred for the purpose of portfolio or risk management for the funds and investments of OSERS. The Board of Trustees may write covered call options or put options. The Board of Trustees may lend any security if cash, United States government obligations, or United States government agency obligations with a market value equal to or exceeding the market value of the security lent are received as collateral.

B. *Credit Risk*

The credit quality of the bonds held in the portfolio is listed below. Each bond investment manager is required to invest according to investment guidelines, including credit quality, established for them by the Board of Trustees.

Credit Quality Distribution of Securities with Credit Exposure

AAA	$	1,634	2.10%
AA		9,937	12.76%
A		12,970	16.66%
BBB		37,793	48.54%
BB		5,254	6.75%
B		9,501	12.20%
NA		770	0.99%
Total	$	77,859	100.00%

August 31, 2015 (Thousands of Dollars)

C. *Interest Rate Risk*

OSERS does not have a formal policy limiting investment maturities that would help manage its exposure to fair value losses that may result from increasing interest rates.

Maturity (Years)	As a Percentage of Market Value
0 to 4	30.65%
5 to 10	35.78%
Over 10	33.57%

D. *Foreign Currency Risk*

The exposure to foreign currency is outlined below on a portfolio wide basis:

Currency	Market Value	Percentage of Portfolio
Australian Dollar	$ 3,602	0.30%
British Sterling Pound	6,574	0.54%
Canadian Dollar	2,652	0.22%
Danish Kroner	4,387	0.36%
EMU (Euro)	11,319	0.94%
Hong Kong Dollar	15,705	1.31%
Japanese Yen	16,094	1.34%
Singapore Dollar	3,093	0.25%
Swedish Krona	3,479	0.29%
Swiss Franc (Chf)	13,784	1.15%
Total foreign currency	80,689	6.70%
United States Dollar	1,123,948	93.30%
Total	$ 1,204,637	100.00%

OSERS' foreign currency denominated investments include both corporate bonds and stocks.

E. *Annual Money-Weighted Rate of Return*

The annual money-weighted rate of return on pension plan investments, net of investment expense, was (4.01%) for the year ending August 31, 2015. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

F. *Risks and Uncertainties*

Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the financial statements.

August 31, 2015 (Thousands of Dollars)

(4) Commitments

Commitments outstanding and available for investment on demand by the limited partnerships as of August 31, 2015 were as follows:

Limited partnership in:		
Mariner Real Estate Paters IV	$	44,401
SPC Capital Management		34,452
AAVIN		27,533
Almanac Realty Securities VII		23,955
Stonetree Capital Fund IV		19,337
Almanac Realty Securities VI		17,999
JP Morgan India Property Fund II		14,920
FCP Fund II		11,256
JP Morgan Global Maritime Fund		9,687
25 Capital Residential Opportunities Fund		4,945
	$	208,485

(5) Net Pension Liability

The components of the net pension liability of OSERS as of August 31, 2015 are as follows:

Total pension liability	$	1,792,128
Fiduciary net position		1,211,107
Net pension liability	$	581,021
Ratio of fiduciary net position to total pension liability		67.58%

Actuarial assumptions. The total pension liability was determined based on an actuarial valuation as of September 1, 2014, rolled forward to August 31, 2015, using standard actuarial formulas and the following actuarial assumptions, applied to all periods included in the measurement:

Price inflation	3%
Salary increases	4 – 5.60%, including inflation
Municipal bond index rate:	
Prior measurement date	4.23%
Measurement date	3.74%
Investment rate of return	8% compounded annually, net of investment expense, and including inflation
Cost-of-living adjustments	1.50% if hired before July 1, 2013
	1.00% if hired on or after July 1, 2013
	Medical COLA of $10 per month for each year retired with a maximum of $250 per month

Mortality

Pre-retirement mortality rates were based on the RP 2000 Combined Mortality Table, female rates set back 1 year and male rates with no set back, projected on a generational basis using Scale AA.

Post-retirement mortality rates were based on the same rates as the pre-retirement tables.

Post-disability mortality rates were based on the same tables as the post-retirement tables, with ages set forward 10 years.

The actuarial assumptions used in the September 1, 2014 valuation were based on the results of the most recent actuarial experience study, which covered the five-year period ending August 31, 2012. The experience study report is dated December 23, 2013.

Information relating to the discount rate used in the actuarial valuations is as follows:

Discount rate: The discount rate used to measure the total pension liability was 8%.

Projected cash flows: The projection of cash flows used to determine the discount rate assumed that Plan contributions from plan members, the School District and the State of Nebraska will be made at the current contribution rates as set out in state statute:

a) Employee contribution rate: 9.78% of compensation.
b) School District contribution rate: 101% of the employee contribution rate.
c) State contribution rate: 2% of the members' compensation.

Based on those assumptions, OSERS' fiduciary net position was projected to be available to make all projected future benefit payments of current System members. Therefore, the long-term expected rate of return on System investments of 8.00% was applied to all periods of projected benefit payments to determine the total pension liability.

Long-term rate of return: The long-term expected rate of return on plan assets is reviewed as part of regular experience studies prepared periodically. The most recent analysis was performed and results were included in a report dated December 23, 2013. Generally, several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and an analysis in which best estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation), along with estimates of variability and correlations for each asset class, were developed by OSERS' investment consultant. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant may cover a shorter investment horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption (30 to 50 years) and is not expected to change absent a significant change in the asset allocation, a change in the long-term inflation assumption, or a fundamental change in the market that alters expected returns in future years.

Municipal bond rate: The discount rate determination does not use a municipal bond rate. If it were required, the rate would be 3.74% on the Measurement Date.

Periods of projected benefit payments: The pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

August 31, 2015 (Thousands of Dollars)

Assumed asset allocation: The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Small Cap Equity	12%	7.1%
Global Equity	15%	7.6%
Specialty Funds	15%	11.0%
Alternatives	25%	7.6%
Fixed Income	5%	3.4%
High Yield Investments	16%	5.9%
Real Estate	12%	7.0%
Total	100%	

Sensitivity analysis: The following presents the net pension liability of OSERS, calculated using the discount rate of 8%, as well as OSERS' net pension liability calculated using a discount rate that is 1 percentage-point lower (7%) or 1 percentage-point higher (9%) than the current rate:

	1% Decrease (7%)	Current Discount Rate (8%)	1% Increase (9%)
Net pension liability	$797,286	$581,021	$400,234

The total pension liability at August 31, 2015 is based upon an actuarial valuation prepared as of September 1, 2014. To determine the total pension liability, the liability was rolled forward one year to August 31, 2015 using standard actuarial formulae and the actuarial assumptions in the valuation.

(6) Subsequent Events

Subsequent to August 31, 2015 OSERS initiated the process to terminate the agreements with two investment fund managers and liquidate the investments held within these funds. The total amount invested in these funds equals approximately 17% of the current OSERS investment portfolio. Due to the inherent uncertainty of valuation and the absence of readily determinable values, material gains or losses may be recognized when these funds are withdrawn from their current investment positions.

Schedule of Changes in the Net Pension Liability
August 31, 2015 (Thousands of Dollars)

		2015	2014
TOTAL PENSION LIABILITY:			
Service Cost	$	38,242	36,090

Net pension liability as a percentage of covered-employee payroll	$	174.39%	133.01%

See accompanying independent auditor's report

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, OSERS will present information for those years for which information is available.

Notes to the Schedule:

Changes of benefit terms: The following changes to the plan provisions were made by the Nebraska Legislature and reflected in the valuation performed as of September 1, 2014 listed below:

2013: The 2013 session of the Nebraska legislature enacted Legislative Bill 553 (LB 553), which increased the Member's contribution rate from 9.3% of pay to 9.78% of pay. The School District's contribution rate is equal to 101% of the employee contribution rate so the District's contribution rate increased from 9.393% of pay to 9.878% of pay. The State contribution rate also increased permanently from 1% (plus $973,301) to 2% of payroll, effective July 1, 2014. LB 553 also created a new benefit structure for members hired on or after July 1, 2013 with the same benefit structure as pre-July 1, 2013 hires except annual cost of living adjustments are the lesser of 1% or CPI and final average compensation is defined as 1/60 of the total compensation received during the five fiscal years of highest compensation.

Changes in actuarial assumptions:

9/1/2013 valuation:

- The one-year age set forward in mortality rates for active male employees was eliminated.
- Classified members' retirement rates were adjusted.
- Vested Certificated members' assumption to elect a refund of contributions was adjusted at certain ages.
- The assumed interest rate credited on member contribution accounts was lowered from 7% to 3%.

Other Information: In 2014, benefit terms were modified to base monthly benefit payments on an average of the highest three years of salary earned by employees during the employment with the District for members hired prior to July 1, 2013. For members hired on or after July 1, 2013 monthly benefits are based on an average of the highest five years of salary earned by employees during their employment with the District.

Schedule of Employer Contributions
August 31, 2015 (Thousands of Dollars)

		2015	2014	2013	2012	2011	2010	2009	2008	2007	2006

See accompanying independent auditor's report

* *Excludes state contribution for state service annuity.*

Notes to the Schedule:

OSERS is funded by statutory contribution rates for members, the School District and the state of Nebraska. The actuarially determined contributions in the schedule of employer contributions are calculated as of the beginning of the fiscal year in which contributions are reported.

The following actuarial methods and assumptions (from September 1, 2014 actuarial valuation) were used to determine the actuarially determined contributions reported for the most recent measurement date, August 31, 2015 (based on the September 1, 2014 actuarial valuation).

Actuarial cost method	Entry age.
Amortization method	Level percentage of payroll, closed.
Remaining amortization period	30 years.
Asset valuation method	Market related smoothed value.
Inflation	3.00%.
Salary increase	4.00% to 5.60%, including inflation.
Investment rate of return	8.00%
Cost-of-living adjustments	1.50% if hired before July 1, 2013.
	1.00% if hired on or after July 1, 2013.
	Medical COLA of $10 per month for each year retired with a maximum of $250 per month.

Changes of benefit terms: The following changes to the Plan provisions were made by the Nebraska Legislature and reflected in the valuation performed as of September 1, 2014 listed below:

2013: The 2013 session of the Nebraska legislature enacted Legislative Bill 553 (LB 553), which increased the Member's contribution rate from 9.3% of pay to 9.78% of pay. The District's contribution rate is equal to 101% of the employee contribution rate so the District's contribution rate increased from 9.393% of pay to 9.878% of pay. The State contribution rate also increased permanently from 1% (plus $973,301) to 2% of payroll, effective July 1, 2014. LB 553 also created a new benefit structure for members hired on or after July 1, 2013 with the same benefit structure as pre-July 1, 2013 hires except annual cost of living adjustments are the lesser of 1% or CPI and final average compensation is defined as 1/60 of the total compensation received during the five fiscal years of highest compensation.

2011: The member contribution rate was increased by the 2011 Legislature form 8.3% to 9.3%, effective September 1, 2011. Since the employer contributes 101% of the member contribution rate, the 1% increase in the member contribution rate resulted in an increase of 1.01% in the District's contribution rate.

2009: Legislation passed in 2009 increased the employee contribution rate from 7.3% to 8.3% of pay. The District contributes 101% of the employee rate so the District's contribution increased from 7.373% to 8.383% of pay. The legislation that enacted these changes also provided for a temporary increase in the State's contribution rate from .7% to 1% of pay for July, 2009 to July, 2014.

2007: Legislation passed in 2007 increased the employee contribution rate form 6.3% to 7.3% of pay and provided for the employer contribution rate of 101% of the employee rate.

Changes in actuarial assumptions:

9/1/2013 valuation:

- The one-year age set forward in mortality rates for active male employees was eliminated.
- Classified members' retirement rates were adjusted.
- Vested Certificated members' assumption to elect a refund of contributions was adjusted at certain ages.
- The assumed interest rate credited on member contribution accounts was lowered from 7% to 3%.

9/1/2010 valuation:

- The inflation assumption was changed from 3.5% to 3%.
- The real rate of return increased from 4.5% to 5%.
- The productivity portion of the general wage increase assumption increased form .5% to 1%.

9/1/2008 valuation:

- Mortality table was changed to the RP-2000 table with age adjustments (+1 male, -1 female) and generational projections of mortality improvement.
- Retirement rates were adjusted to better fit the observed experience.
- The use of a disability assumption was eliminated.
- Termination rates were modified to better fit the observed experience.
- Small adjustments based on actual experience were made to the election of a refund assumption.

9/1/2007 valuation:

- The actuarial value of assets was reset to the actual market value.
- The funding policy was set equal to the normal cost plus amortization of the unfunded actuarial liability over a closed 30 year period, commencing September 1, 2007.

Schedule of Money-Weighted Rate of Return
August 31, 2015

	Money-Weighted Rate of Return
2015	(4.01%)
2014	13.31%

See accompanying independent auditor's report

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, OSERS will present information for those years for which information is available.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

To the Board of Education
Omaha School Employees' Retirement System:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Omaha School Employees' Retirement System (OSERS) as of and for the year ended August 31, 2015, and the related notes to the financial statements, which collectively comprise OSERS' basic financial statements, and have issued our report thereon dated November 5, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered OSERS' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of OSERS' internal control. Accordingly, we do not express an opinion on the effectiveness of OSERS' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether OSERS' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
